

Join Us in Making the Commitment to Safe Healthcare

Participate in Patient Safety Awareness Week

Stony Brook University Medical Center is an environment where Patient Safety is top of mind. We consider everyone—healthcare professionals, family members, visitors and patients themselves—to be part of a healthcare team whose members work together to help ensure each patient's safety.

WHAT YOU CAN DO TO STAY SAFE

Be Involved: Take part in your own healthcare.

Be Informed: Understand your diagnosis and what you need to do to improve your health.

Be Invested: Stay committed to dedicating the time, energy and resources to improving your health.

Patient Safety Week Events

All are open to the community.

Monday, March 7

Patient Safety Poster Display
Medical Center Lobby

Come and cast your vote for your favorite poster. Winners will be announced on Thursday, March 10.

Wednesday, March 9

Presentation by Sorrel King
12:30 pm to 2 pm • Lecture Halls 1 and 6*

Our distinguished guest, Sorrel King, mother of Josie King, will share a moving, personal story about medical errors, and speak about the Josie King Foundation's mission to create a culture of patient safety for us all.

(*video broadcast only in Lecture Hall 6)

Thursday, March 10

Patient Safety Health Fair
10 am to 3 pm • Medical Center Lobby

- Health screenings and risk assessments
- "Ask the Pharmacist" Booth
- Healthcare professionals available to answer questions
- Information on National Patient Safety Goals
- Blood pressure, glucose and cholesterol screenings
- Games and raffle prizes
