Reduce, Reuse, Recycle, Rethink RA programming

Name of Program: Think Global!

RA(s) Presenting: Bria Mathis

Purpose:
Residents will learn about natural, earth friendly products from around the world. Products will include shea butter, aloe vera, henna, extra virgin olive oil and much more.

Duration:
1 hour

Objectives:
1. Openly discuss issues of diversity
2. Gain a greater understanding of the global community

Materials used: (Provide copies of handouts if used)
Reduce, Reuse, Recycle, Rethink RA programming

Name of Program: Turn Off the Lights

RA(s) Presenting: Abigail Abesamis

Purpose:
To encourage residents to save energy by turning off the lights in their rooms/suites (if only for a short while), and coming to the SSO center. Residents can choose to decorate old t-shirts attached to glow sticks will be quick tips to being more sustainable.

Duration:
2 hours

Objectives:

1. Identify ways to be environmentally responsible

Materials Used:
Tshirt markers/paint. glow sticks. attendance sheet. pen. music system (possibly portable, battery operated speakers). board games. cards.
Name of Program: Clothes Drive

RA(s) Presenting: Eric Blaney

Purpose:
This program is designed to educate residents about the negative impacts of excessive clothes production--and encourage them to donate articles of clothing that they rarely or never use. This will hopefully be a jump start for the residents to become more aware of their carbon footprint as well as understand what sort of charities exist for the collection of clothing.

Duration:
1 hour

Objectives:
1. Identify ways to be environmentally responsible
2. Identify the personal benefits of volunteerism

Materials Used:
- Containers to collect Clothing
Name of Program: How To Recycle On Campus

RA(s) Presenting: Ashley Wegmann

Purpose:
For recyclmania, I will explain to residents how they can recycle on campus and make our campus more green.

Duration:
1 hour

Objectives:
1. Identify ways to be environmentally responsible

Materials Used:
List of ways to be green on campus [powerpoint(?)], juice boxes, bags of chips.
Name of Program: Smell The Roses

RA(s) Presenting: Dami Lawal

Purpose:
Residents will be shown how to reuse materials, by using recycled bottles for planting flower seeds.

Duration:
1 hour

Objectives:

Materials Used:
Recycled water bottles and seeds.
Reduce, Reuse, Recycle, Rethink RA programming

Name of Program: Campaign Against the Plastic Plague

RA(s) Presenting: Alicia Minervini

Purpose:
Residents will learn how plastic bags can be harmful to the environment, how they are currently recycled, how they can be recycled in creative ways, and alternatives to using plastic so that the environment stays protected.

Duration:
1 hour

Objectives:

1. Articulate current social justice issues including but not limited to economics, peace, poverty, justice, environment, and globalization
2. Identify ways to be environmentally responsible

Materials Used:

Tote bags, pizza and soda
