

Degree Progress Checklist

For Students with majors in
College of Arts & Sciences, College of Business,
School of Marine & Atmospheric Sciences,
School of Journalism, and Sustainability Studies

NAME: _____

DATE: _____

Important Notes:

1. IP (In Progress courses) are counted as if you have completed them successfully. If you do not complete your IP courses, you may not be eligible to graduate.
2. If you are repeating a course, keep in mind you may only earn credit for repeated courses once (unless the course is designated repeatable).
3. Courses with a grade of I (Incomplete) are reflecting earned credit and satisfaction of University requirements on your transcript. Incomplete course-work not completed by the deadline posted on the academic calendar will result in a grade of I/F on your transcript. I/F grades will result in a deduction of earned credits and applicable University requirements.
4. Please read reverse side for important information about your Degree Progress Report.

****This is an UNOFFICIAL evaluation of your Degree Progress Report.****
