The Premier New York State Advanced Energy Conference

THE FUTURE OF ENERGY IS HERE

SPONSORSHIP AND EXHIBITOR PROSPECTUS

MARCH 26, 27 & 28 • MARRIOTT MARQUIS HOTEL • NEW YORK CITY

ADVANCED ENERGY™
Research and Technology Center
AT STONY BROOK UNIVERSITY
a New York State designated Center of Excellence
aertc.org/aec2018
Growing from promise to a global priority

- New York’s Reforming the Energy Vision (REV) strategy calls for 50% of all electricity consumed in the state to come from clean and renewable sources by 2030.

- Legislation in Hawaii, the nation’s most fossil-fuel-dependent state, mandates that the islands will be powered entirely by renewable and sustainable resources by 2045.

- By 2020 China expects 15% of its energy to come from non-fossil sources, including 6% (420 TWh) from wind power alone.

- Two-thirds of Canada’s electric power is provided by hydro, wind and solar sources.

- Sweden is committed to becoming fossil-fuel independent, with Stockholm to be powered entirely from renewable sources by 2050. Denmark has set similar goals.

- Costa Rica currently generates more than 98% of its electricity from hydro, solar, wind and bio mass installations.

Sustainable energy is no longer simply a vision: it’s the focus of plans that are in action around the world.

The Future of Energy is Here

Advanced Energy 2018 is the 10th conference in a series that has risen in prominence and importance as the only such event to cover all sectors of the energy industry. Those years have witnessed promising new technologies grow and ultimately mature into robust sectors of our energy economy. Moreover, solar, wind, geothermal, smart grid, and other energy technologies are now the primary focus of forward-looking energy plans and initiatives… both in the United States and in nations around the world.

Without question, the future we envisioned years ago has arrived. It is also certain that technologies emerging today will shape the energy landscape of tomorrow, and AEC 2018 is where those technologies will be on display.

This is North America’s most comprehensive and influential energy event

New York is home to one of the nation’s most aggressive clean energy program initiatives. New York City is the financial capital of the world. There could not be a more promising venue for bringing together the energy industry’s leading researchers, entrepreneurs, financial executives and venture capitalists, government officials – with energy-focused companies or organizations like yours. This is where innovation and opportunity converge, and where industry leaders come to discover the next big thing in renewables and energy technologies. Sponsoring and exhibiting at AEC 2018 will help establish a leadership position for your company or organization through:

- **Broad national and international exposure** and the opportunity to reach and sell to buyers and policy makers from every corner of the energy industry. Introduce your products or services to business leaders and research centers you may not have connected with before.

- **Strong participation by the academic community** with as many as 72 separate universities, colleges and other educational organizations from across the United States having been represented at previous conferences.

- **Networking and partnering at the highest levels** assured through a broad representation of industry-leading researchers, entrepreneurs, and innovators; business and financial executives; policy makers; and venture capitalists. This is where to meet potential partners or collaborators, and identify opportunities for business, funding or investment.
An international audience of energy industry buyers, influencers and policy makers

On average, about 70% of attendees are from industry, utility or government/regulatory agencies, and 30% from research and education.

The past five conferences have brought representatives from:

- 38 separate countries on six continents.
- As many as 40 U.S. states

Additionally, when the conference has been held in New York City, past participation has included:

- 8 national laboratories
- As many as 765 different organizations
- U.S. military organizations and the Department of Homeland Security

Unlimited opportunities for networking and doing business

Meet the buyers and decision makers

Past conferences have not only attracted attendees from every segment of energy research, policy and business, participation came at the highest organizational levels, with titles that included:

- President
- Chief Executive Officer
- Chief Technology Officer
- Board Chairperson
- Executive Director
- Chief Operating Officer
- VP Government Affairs
- Chief Scientist
- General Manager
- VP Research
- VP Technology
- VP Marketing
- Senior Technical Specialist
- Managing Director, Research and Development
- Technical Development Manager
- Business Development Director
- Business Manager, Environmental Management
- Renewable Power Providers
- Insurance Firms
- Interconnection Companies
- Institutional Investors
- Investment Banks
- Law Firms
- Not-For-Profit Organizations
- Municipalities
- Energy & Policy Makers & Regulators
- Product Manufacturers
- Project Developers Oil & Gas Companies
- Research & Development Companies
- Schools & Universities
- Utilities
- Venture Capital Firms

With attendance from every key segment of the advanced energy market

AEC 2018 will be the ideal networking and business-building environment for anyone with an interest in the future of energy, including:

- Architects
- Associations
- Building Owners
- Code Officials
- Consulting Firms
- Construction & Rigging Firms
- Contractors
- Developers
- Energy Companies
- Energy-efficient Companies
- Engineers
- Equipment/Component Manufacturers
- Facility Managers
- Faculty of American Institutions
- Financial Services Firms
- Government/Regulatory Agencies

For further information on sponsorship, please contact: Alan Morris at alan.morris@aertc.org or 516.268.4533 • aertc.org/aec2018
Consider these benefits of exhibiting at AEC 2018:

• **Networking at the highest levels**: This is a unique opportunity to access the top people in the energy industry and establish your company’s reputation among the industry’s thought leaders, innovators, corporate leaders, investors, and policy makers.

• **Enhancing your visibility**: Introducing a new product? Looking to penetrate a new segment of the market? AEC 2018 offers an unprecedented degree of exposure to the leaders who influence and make decisions.

• **Broadening your industry penetration**: The Advanced Energy Conference looks to stimulate synergy and the exchange of ideas by attracting participation from all sectors of renewable/sustainable energy and the energy management technologies. Gain recognition beyond the parochial bounds of your particular market or technology, explore opportunities for technological “cross-pollination”, and uncover potential joint venture partnerships.

• **Gaining national and international exposure**
  In the past, this conference has attracted energy industry leaders from 38 foreign countries and as many as 34 U.S. states. Given the prominence of energy initiatives around the world, international participation in AEC 2018 is anticipated to exceed prior events.

• **Capitalizing on broad-based press coverage**
  Participation by high-level speakers and presenters will focus the attention of the trade and mainstream media on AEC 2018, assuring national and worldwide visibility for its sponsors and exhibitors.

• **Establishing prominence in our industry**
  Presence as an AEC 2018 sponsor or exhibitor solidifies your company’s position as an energy industry leader.

---

**Where buyers, decision makers and investors come searching for opportunities**

**Could your product or service be “the next big thing”?** Then this is your best opportunity to put it in front of the top people from across the energy industry. Thought leaders from academia, research organizations and government agencies will join with leaders from business and the financial industry at **AEC 2018**.

AEC 2018 will put special emphasis on several key areas: **Smart Grid, Solar, Offshore Wind, and Battery and Energy Storage**. This is a “must” event for any organization or individual with an interest in these evolving technologies, but it doesn’t end there – a range of other areas will be spotlighted as well, including **BioEnergy, Building Efficiency and Alternative Fuel Vehicles**.
Become a Sponsor of AEC 2018 and take your place among the elite companies engaged in energy research and development

The roster of past conference sponsors is a list of the industry’s leading corporations and research centers, and many have already committed their support to AEC 2018. Does your organization’s deserve to stand among them? Aside from establishing your commitment to the future of energy, sponsorship comes with some very significant advantages.

Your company’s sponsorship of AEC 2018 will:

• Immediately reinforce of your dedication to America’s energy future and make it known to a major share of the industry’s most important opinion leaders
• Receive public recognition for your sponsorship in conference literature and signage
• Place your organization’s logo and special sponsor profile in the Conference Program guide, and on the Conference website with a link to your company’s website
• Maximize your company’s visibility in all public relations and marketing initiatives
• Provide enhanced awareness among government officials, investors, and potential technology partners

…and secure many more exclusive benefits that increase with your level of sponsorship, as outlined on the pages that follow

Previous Advanced Energy Conference Sponsors include such industry-leading organizations as:

[List of sponsors]

For further information on sponsorship, please contact: Alan Morris at alan.morris@aertc.org or 516.268.4533 • aertc.org/aec2018
We invite you to establish your company’s leadership at this major event by becoming a sponsor of Advanced Energy Conference 2018. Gain recognition, visibility and appreciation for your contribution to the success of one of the year’s most important energy conferences.

**HOST SPONSOR: $100,000**

- Sponsor will have preferential positioning during any scheduled Press Conference
- Sponsorship mentioned in any scheduled Press Releases
- Acknowledgement with photo of your Senior Leader in “Welcome Letter” in Conference Program
- Logo Placement by all water coolers in Break-Out Session area
