

# BPI- Building Analyst

## TRAINING FOR THE NEW GREEN ECONOMY

The Building Performance Institute, Inc., (BPI) is the nation's premier building performance credentialing, quality assurance, and national standards setting organization. BPI supports the development of a highly professional building performance industry through individual and organizational credentialing and a rigorous quality assurance program. Individuals that have been trained, tested, and certified to BPI's nationally recognized standards use the house-as-a-system approach to improving the performance of existing homes - an approach proven to reduce homeowner annual utility bills by as much as 20% or more. That is why BPI standards or equivalent are cited by the Home Performance with ENERGY STAR® program from the Department of Energy (DOE), the Environmental Protection Agency (EPA), as well as several state Weatherization Assistance programs.

### COURSE DESCRIPTION

Building Performance Institute (BPI) Building Analyst course teaches you basic principles of building science to assess energy efficiency in a home while also monitoring conditions that have a direct impact on human health and safety. You will learn how to use diagnostic equipment such as the blower door and the combustion analyzer to ensure systems are functioning together correctly to maximize home performance, comfort, energy efficiency, safety and durability.

### Who Should Attend

Home Inspectors, HVAC and, Insulation Professionals, General Contractors, Home Builders, Engineers, Architects

### Instructor

CSG (Conservation Services Group) is a Building Performance Institute (BPI) affiliate actively involved in the development of BPI technical standards and associated training.
