APPLICATION

ENGINEERING & TECHNOLOGY ENTREPRENEURSHIP MINOR

For Engineering Students

The ETE minor is intended to expose engineering students to entrepreneurial skills; and to expose non-engineering students to various technology entrepreneurship skills.

Requirements for the ETE Minor

Application: Students may declare the minor after completion of courses in Categories A and B.

A. Two core engineering courses from one of the engineering majors (6 credits)
B. One course from the following (3 credits):
   1. ESE 201: Engineering and Technology Entrepreneurship (3 credits)
   2. EST/BUS 364: How to Build a Start-Up
   3. BUS 353: Entrepreneurship
   4. BUS 383: Social Entrepreneurship

Completion: A total of 18 credit hours (6 courses) and no grades less than C may be used to meet the requirements for the minor.

Please complete this form, attach an unofficial copy of entire SUNY SB course history and return to Light Engineering Bldg, room 267:
