The ETE minor is intended to expose engineering students to entrepreneurial skills; and to expose non-engineering students to various technology entrepreneurship skills.

**Requirements for the ETE Minor**

**Application:** Students may declare the minor after completion of courses in *Categories A and B.*

**Completion:** A total of 18 credit hours (6 courses) and no grades less than C maybe used to meet the requirements for the minor.

Please complete this form, attach an unofficial copy of entire SUNYSB course history and return to Light Engineering Bldg, room 267:
