APPLICATION FOR ADMISSION TO Electrical Engineering Minor

The Electrical Engineering minor is intended for students with majors other than Electrical or Computer Engineering who seek to complement their chosen major through an introduction to the principles and techniques of electrical engineering.

Students interested in the minor should apply through the Electrical & Computer Engineering Department office as early as possible. A GPA of 2.75 is required for acceptance into the minor.

In taking ESE courses towards the minor, students must meet the relevant co-or pre-requisites of each ESE course. The minor requires at least nine credits of upper division course work. The minor can be completed with 21 credits in the following manner:

1. ESE 123 (4 credits): Introduction to Electronic Design.

2. ESE 271 (4 credits): Circuit Analysis

3. Four or five ESE courses (at least 13 credits)—9 credits must be from upper division courses. Minor students may not take for credit towards the minor ESE 124, 275, 300, 301, 324, 440, 441, 475, 476, 488 or 499.

4. In all courses that count towards the minor, a “C” or better is required.

Please complete this form, attach an unofficial copy of entire SUNYSB course history and return to Light Engineering Bldg, room 267:
