**Fall Headcount Enrollment - Graduate Programs, By Campus/Location, School/College, Program, and Gender**

About these data

This table displays fall headcount enrollments following IPEDS reporting conventions for students enrolled in graduate level programs fall 2011 through fall 2015 (fall 2015 is preliminary until reported to IPEDS in spring 2016). Students enrolled in professional programs are included. Counts represent primary graduate program only and will undercount enrollment in joint programs (e.g. MPH/MBA) as well as certificate programs in which a student enrolled in a graduate degree program is concurrently pursuing an additional certificate. Interpret these enrollments with caution. Additionally, programs shared among schools or colleges are represented here under just a single unit, so that the sum of counts by program will equal the total number of graduate students enrolled in the term.

### Fall Headcount Enrollment - Graduate Programs, By Campus/Location, School/College, Program, and Gender

#### About these data
This table displays fall headcount enrollments following IPEDS reporting conventions for students enrolled in graduate level programs fall 2011 through fall 2015 (fall 2015 is preliminary until reported to IPEDS in spring 2016). Students enrolled in professional programs are included. Counts represent primary graduate program only and will undercount enrollment in joint programs (e.g. MPH/MBA) as well as certificate programs in which a student enrolled in a graduate degree program is concurrently pursuing an additional certificate. Interpret these enrollments with caution. Additionally, programs shared among schools or colleges are represented here under just a single unit, so that the sum of counts by program will equal the total number of graduate students enrolled in the term.
