**History of the Israeli/Palestinian Conflict**
On May 14th 1948 Israel declared its independence. For the last 68 years, Israel was unacceptable to the Arab world. In 1948, 1967 and 1973 Israel had to fight for its survival against the Arab armies of Egypt, Syria, Jordan, Lebanon and Iraq. The Arab warring parties fought these wars in the name of the local Arab residents (today is known as Palestinians). Between 1948 and 1967 the local Arabs lived in Gaza under Egyptian control and in the West Bank under Jordanian rule. They did not call the control of an outsider either Egypt or Jordan an Occupation, even though they had no national autonomy. After the Six Day War of June 1967 both Gaza and the West Bank fell under Israeli control. This changed the nature of the conflict which has sapped the energies of both sides and got the reputation of the most difficult international insoluble problem. In two short sessions we will visit the roots of the problem and the many (failed) attempts for a peaceful solution. And maybe, with your help, we will be able to open the Gordian knot.

Each session will feature one 45-minute episode of “Tabloid Wars” and a follow-up discussion led by a former Daily News reporter, editor and Journalism professor.

**Were the Catskills, NYC Delis and Coney Island related?**
Join us for a nostalgic trip back in time revisiting many of NYC’s iconic kosher delis. If Katz’s, Carnegie’s, Ben’s or the 2nd Avenue Deli rings a bell, you’ll love this exciting film about the “comfort foods” of our youth. The Coney Island we didn’t know was truly the forerunner for Disney World or Universal. This rarely seen film tells an extraordinary story of historic importance. It’s a tale worth seeing and reminiscing about.
