Tobacco Free!

Stony Brook is tobacco free! Tobacco includes all tobacco and tobacco-derived product including, but not limited to:
• Cigarettes
• Electronic cigarettes
• Vapes
• Cigars
• Hookah-smoked products
• Oral and smokeless tobacco (e.g., dip, chew, snuff, spit).

There are resources available to help with tobacco cessation.

Visit [http://www.stonybrook.edu/commcms/tobaccofree/](http://www.stonybrook.edu/commcms/tobaccofree/) for more info
What does the conduct process look like for students who violate the tobacco-free policy?

- Faculty/Staff that document students violating the policy should be referred to the Office of University Community Standards (UCS).

- **First offense:** The student will be entered into our conduct database and an educational letter will be sent out via email acknowledging the violation and sharing smoking cessation resources.

- **Further offenses:** The student will be entered into our conduct database and will be called in for a conduct hearing to discuss the continued violation. If found responsible for the policy violation, a letter of warning will be issued and may include other possible educational sanctions.

- Professional staff in the residence halls and apartments will continue to educate the residential community about the tobacco-free policy through emails, postings and educational cards. If a violation is documented in or around the residential footprint, it will be handled by Residential Community Standards (RCS), Residence Hall Director (RHD) or Apartment Living Coordinator (ALC).
HOUSING ASSIGNMENTS

- Will be communicated in mid January approximately a week prior to arrival through your Stony Brook email:

- New Students are not guaranteed housing for the Spring semester but in practice all who apply for housing by early January are typically accommodated in some type of residential space.
