Expectations
Academic Expectations

• Be an active participant in class.
• Meet all assignment deadlines.
• Focus on the quality of your writing – including grammar & spelling, organization, depth of argument, intellectual engagement, and academic integrity. Seek help and get feedback.
• Maintain good academic standing with a minimum GPA of 3.0 (graduate, cumulative and in the program).
• Hone your research and citation skills: seek training and understand the Academic Honesty Policy.
Academic Honesty

• Cornerstone of all academic and scholarly work.
• Stiff penalties for students who are found responsible.
• Often, accused students do not know how to properly cite their sources (but they are still found responsible).
• Consider viewing a recorded Citation Skills Workshop at guides.library.stonybrook.edu/spd/home or registering for a live webinar in September.
Online Learning at SPD

• Classes offered in an asynchronous graduate seminar format in 10-week terms.
• Be mindful of workload: Each course requires about 10-15 hours per week.
• Be prepared to log-on and post on at least three separate days per week (but most students log in daily).
• Have a back-up plan: Print out material, back-up files, and find other resources for computing and Internet connectivity.
• Courses are “open” in Blackboard about two weeks prior to the start of the term.
Administrative Expectations

• Students are responsible for knowing and abiding by all SPD/SBU policies and deadlines (refer to Academic Calendars, SOLAR, Student Accounts website, and the Graduate Bulletin/SPD Supplement).

• Check SOLAR for Messages and Holds.

• Proactively search for information on the SPD Website and SOLAR and seek help when needed.

• When contacting a University office, please include your SB ID and program name.
Administrative Expectations (cont)

Hiding Behind the Screen
Roger Scruton

Human relations, and the self-image of the human being, have been
profoundly affected by the Internet and by the ease with which images
of other people can be summoned to the computer screen to become the
objects of emotional attention. How should we conceptualize this change,
and what is its effect on the psychic condition of those most given to con-
structing their world of interests and relationships through the screen? Is
this change as damaging as many would have us believe, undermining our
capacity for real relationships and placing a mere fantasy of relatedness in
their stead? Or is it relatively harmless, as unproblematic as speaking to
a friend on the telephone?

First, we should make some distinctions. We all now use the com-
puter to send messages to our friends and to others with whom we have
dealings. This sort of communication is not different in any fundamental
respect from the old practice of letter writing, except for its speed. Of
