About Stony Brook University’s Educational Leadership Programs

Stony Brook University offers two post-master’s certificate programs that lead to certification in areas of school district, building and business leadership.

- The Educational Leadership (EDL) program prepares K-12 educators for advancement to positions at both the school district (SDL) and school building (SBL) levels. Such positions include superintendent of schools, district superintendent, assistant superintendent, principal, assistant principal, department chairperson, or athletic director. As of Fall 2007, this is the first program of its kind in New York State that serves as a pathway for certification at both the district and building levels.

Hiding Behind the Screen
Roger Scruton

Human relations, and the self-image of the human being, have been profoundly affected by the Internet and by the ease with which images of other people can be summoned to the computer screen to become the objects of emotional attention. How should we conceptualize this change, and what is its effect on the psychic condition of those most given to constructing their world of interests and relationships through the screen? Is this change as damaging as many would have us believe, undermining our capacity for real relationships and placing a mere fantasy of relatedness in their stead? Or is it relatively harmless, as unproblematic as speaking to a friend on the telephone?

First, we should make some distinctions. We all now use the computer to send messages to our friends and to others with whom we have dealings. This sort of communication is not different in any fundamental respect from the old practice of letter writing, except for its speed. Or...
