Program Overview
Master of Arts in Liberal Studies Program

The Master of Arts in Liberal Studies is an interdisciplinary degree program that examines issues and themes in the arts and humanities, social and behavioral sciences, and natural and applied sciences. The program is offered primarily to working adults who seek educational enrichment and professional development on a part-time basis, and does not specifically serve as a prerequisite for a more advanced degree.
Master of Arts in Liberal Studies

Course of Study

This degree program consists of 11 three-credit courses, distributed among the three areas listed below. All degree requirements must be completed within five (5) years from the semester date of admission as a matriculated student. Students are advised to print and keep this student advisement worksheet (PDF) for reference.

1. Liberal Studies Core - 12 credits

Only courses designated as “Liberal Studies” core courses will count toward fulfilling this requirement. Courses that have met the University’s standards for the Liberal Studies core are coded in course descriptions with an AHLS, SBLS or NSLS.

- 3 credits - Arts and Humanities Liberal Studies (AHLS)
- 3 credits - Social and Behavioral Sciences Liberal Studies (SBLS)
- 3 credits - Natural and Applied Sciences Liberal Studies (NSLS)
- 3 credits - Any additional Liberal Studies course with an AHLS or NS designator

Note: There are no transfer credits or substitutions permitted for the Liberal Studies Core curriculum.

2. Thematically-Related Cluster - 18 credits

A cluster is a group of courses that represents a focused area of interest. Students are allowed considerable freedom and flexibility in designing their clusters, and may choose from most of the courses offered through SPD. (Teachers must read the Teacher Certification page prior to developing their clusters.) Students may also choose to incorporate a 3- or 6-credit internship into their thematically related cluster. Visit the Liberal Studies Internship information page for details and an application.

In addition, students may choose courses from one of Stony Brook's Advanced Graduate Certificate (AGC) programs...

Content Area Requirements for Teachers

Certified teachers who hold an initial license can use the MALS for professional licensure provided that:

• they successfully complete at least 12 credits in the content area in which they hold an initial license;
• final grades in these content area courses must be a "B-" (B minus) or better; and
• they follow the steps outlined in our Sample Professional Certification Application Guideline for your TEACH on-line account (links on website).

• See www.stonybrook.edu/spd/graduate/teacher_cert.html for details.
Teaching Certification Information

Master of Arts in Liberal Studies Applicants

If you are a certified teacher and hold an initial license,* you will need to earn a master’s degree to obtain professional certification. The MA in Liberal Studies serves this purpose, provided that:

- you successfully complete at least 12 credits in the content area in which you hold an initial license;
- final grades in these content area courses must be a “B-” (B minus) or better; and
- you follow the steps outlined in our Sample Professional Certification Application Guide (PDF) for your TEACH on-line account. (Be advised that this is strictly a basic guide and information must be adjusted according to your history, education and experience as appropriate. For further information, visit NYSED at http://www.highered.nysed.gov/tcert/certificate/relatedmasters.html.)

When applying for professional license, Liberal Studies students must file for certificate progression via “Individual Evaluation.”

*If you are not yet licensed to teach, SPD offers several Master of Arts in Teaching programs that lead to licensure.

Content Areas

View our listing of professional certification content areas to see which SPD courses might be used for certification; however please note it is in the student’s best interest to obtain approval for a given course from NYSED prior to course registration.

Program applicants should review the University’s course offerings to ensure that they are relevant to their specific certification needs.

Biology

According to NYSED, acceptable studies for certification in biology (grades 7-12) include courses in scientific methods, cell biology, biochemistry, anatomy and physiology, comparative anatomy, genetics and evolution, biological diversity, human biology, and ecology. Courses in nutrition are acceptable only if they are in cell nutrition.

Courses with departmental subject codes (e.g., BIO) are valid for the content area for professional license provided they are not methods courses. In addition, Stony Brook University has found that the courses listed below have met the NYSED requirements in the past; however, this DOES NOT GUARANTEE that these courses will continue to meet this requirement in the future. When in doubt, please check with NYSED prior to registration for any course to determine its acceptability.

Hiding Behind the Screen
Roger Scruton

Human relations, and the self-image of the human being, have been profoundly affected by the Internet and by the ease with which images of other people can be summoned to the computer screen to become the objects of emotional attention. How should we conceptualize this change, and what is its effect on the psychic condition of those most given to constructing their world of interests and relationships through the screen? Is this change as damaging as many would have us believe, undermining our capacity for real relationships and placing a mere fantasy of relatedness in their stead? Or is it relatively harmless, as unproblematic as speaking to a friend on the telephone?

First, we should make some distinctions. We all now use the computer to send messages to our friends and to others with whom we have dealings. This sort of communication is not different in any fundamental respect from the old practice of letter writing, except for its speed. Of
