The Simons Center for Geometry and Physics invites you to the opening of

**How THINKS Work**

Tuesday, November 29, 2011
Simons Center for Geometry and Physics

5:30 Wine and cheese reception
6:30 Lecture by Al Seckel on visual illusions
7:00 Computer music demonstration by Dan Weymouth
Monologues produced and directed by Steve Marsh

This exhibition is organized around the concept of exploring the human thinking process in relationship to mathematics, human perception, philosophy, language, and nature. The works consist of sculpture, installations, prints, performances and media from the Ars Cora Collective, Tatjana Busch with composer Wolfgang Schmid-Grandy, Helaman Ferguson, the Houdini Collective, Kiki Smith, and Victoria Vesna.
