## **DOUBLE DEGREES**

Qualified students may be granted permission to earn double degrees at the undergraduate level only if one of the major's leads to a degree that is specified as professional or clinical (externally certified) and the total number of credits completed for the two degrees is at least 144.

Only the following currently offered undergraduate programs are considered to be professional or clinical degree programs:

- Bachelor of Engineering degrees in biomedical engineering, chemical and molecular engineering, engineering science, electrical engineering, computer engineering and mechanical engineering;
- Bachelor of Science degree in nursing;
- Bachelor of Science degree in social welfare;
- Bachelor of Science degrees in clinical laboratory sciences, occupational therapy, respiratory care and athletic training.

Students who are planning to complete the majors in biology and clinical laboratory sciences should note that this program will lead only to a double major, not a double degree.

Students who are planning to complete a Bachelor of Science degree in nursing or a bachelor of social work degree in social welfare and any other major should note that these programs will lead only to a double degree, not a double major.

Students must be formally admitted to each unit granting the degree and have written approval from the dean of each college. Approval is subject to review and final authorization by the Office of Undergraduate Academic Affairs.

FOR MORE INFORMATION PLEASE SEE *DOUBLE DEGREES* UNDER THE *POLICIES AND REGULATIONS* SECTION OF THE ON-LINE **UNDERGRADUATE BULLETIN** or VISIT THE OFFICE OF UNDERGRADUATE ACADEMIC AFFAIRS, LIBRARY E-3310.
