

Health Sciences Center - Undergraduate Courses – Spring 2010

The Health Sciences Center courses listed below are available on a limited basis to non-HSC students. Permission of the instructor must be obtained prior to registration. Non-HSC students register for Health Sciences Center courses at west campus, Office of Records, not at the Health Sciences Center. When west campus students register for a Health Sciences Center course scheduled in a spring module /session code, this course counts towards the students' spring course load only, even if the module / session code extends into the summer term.
