

Instructions for Accessing Airnet on a Mac with no Limitations (Mac OS 10.3.6 and above)

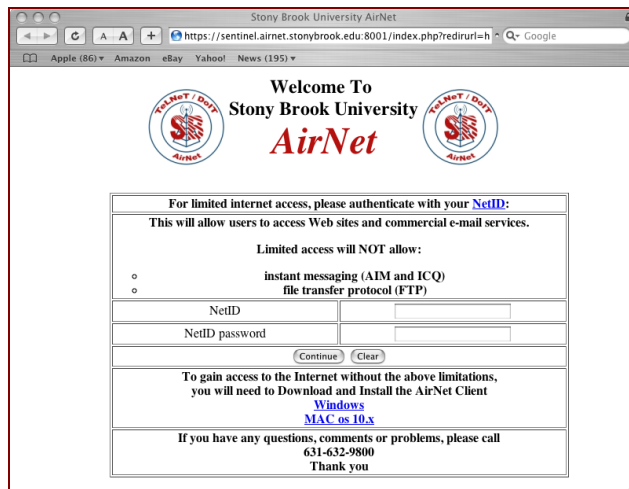

1. Select Airnet from the available wireless networks in the Airport Menu.

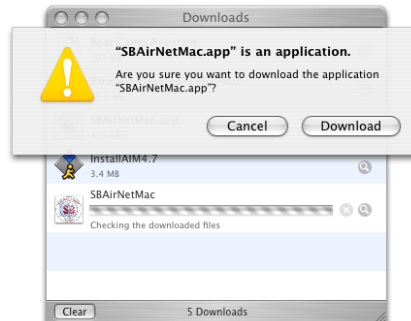

2. Open the Internet Browser. (Safari, Firefox, etc.)

3. The following page should be displayed. Click on the Link for Mac Client.

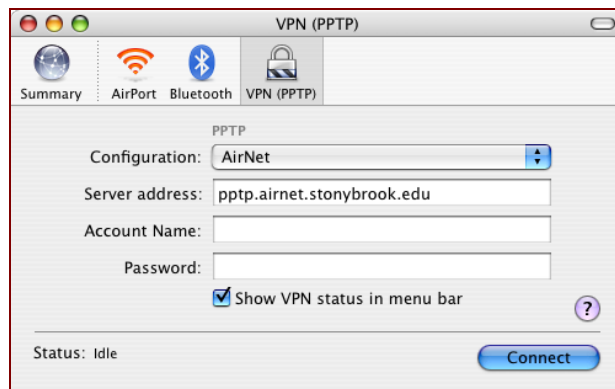

4. The client will begin downloading. You may be asked if you would like to continue, click **Download**.

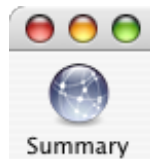

5. After the download is complete, a SBAirNetMac Icon will appear on the Desktop. Double Click the Icon.

6. Internet Connect will open. All the properties will be completed except Account Name and Password. Put Your **NetID** in as the **Account Name** and Your **NetID password** for the Password.

7. After the Account Name and Password are completed, Click on the Summary Icon in the upper left corner.

8. A window will appear asking if you want to save your changes. Click **Save**.

9. To connect and disconnect from the AirNet VPN, you can use the VPN Menu located in the Menu Bar.
