

AirNet Client Instructions for Apple Systems

(For use with 10.2.x)

Step 1

- Make sure you are connected to AirNet by selecting it in the "AirPort" icon in the upper right hand corner menu bar.

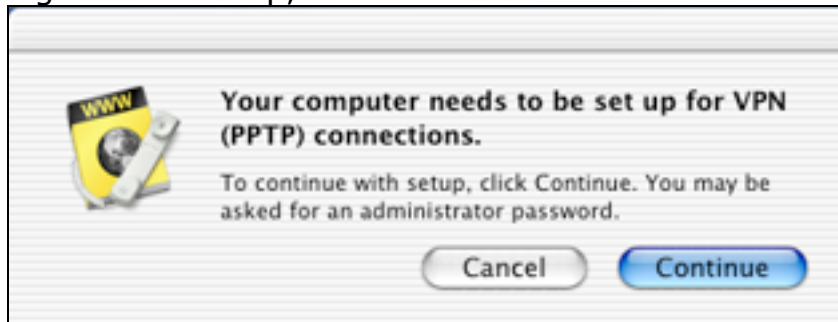

Step 2

Open Internet Connect by selecting it in the "AirPort" icon on the menu bar.

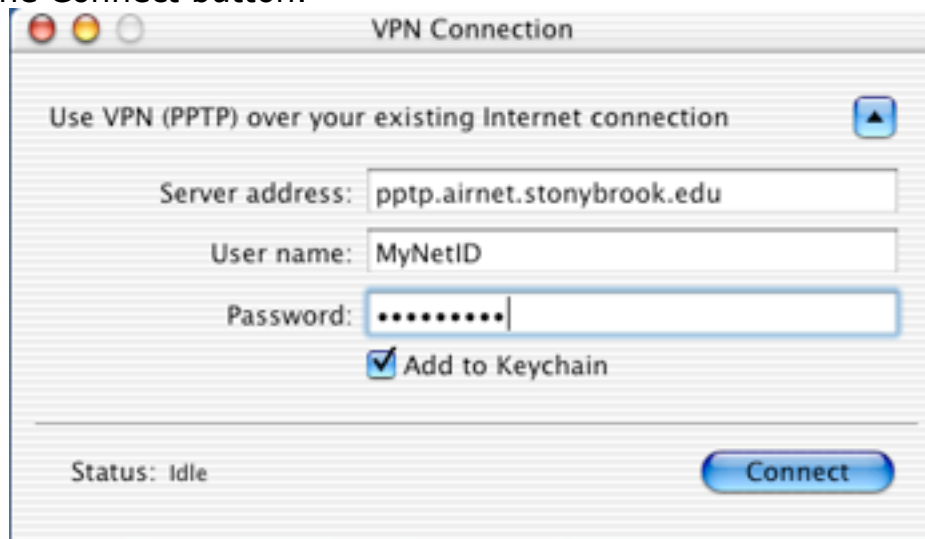

Step 3:

- If this dialog box shows up, click on **Continue**.

Step 4

- Fill in Server address: **pptp.airnet.stonybrook.edu**, your **NetID**, and your **NetID** password.
- If you do not know your NetID or your NetID password, you must log onto SOLAR to set it up.
- If you want your NetID and Password stored, click **Add to KeyChain**.
- Click the Connect button.

Step 5

- Once connected, the application can be quit, and it will retain the connection.
- To disconnect, click the **Disconnect** button. If the application is not running, launch it from the "AirPort" menu bar (See Step 1).
