**Z=2610**

---

It is Stony Brook University's policy to prohibit software piracy, copyright infringements and unauthorized use of any software product.

1. MathWorks products obtained will be used solely for internal data processing operations.
2. MathWorks programs acquired under this contract are to be installed exclusively on campus owned, leased to or under the sole control of the University.
3. I acknowledge the acquisition of only the right to use the programs and not the right of ownership.
4. I agree not to cause or permit the reverse engineering, disassembly, or recompilation of the programs.
5. I agree to copy software only in accordance with the terms and conditions of the contract and administrative procedures.
6. If the Department or SUNY terminates agreement, I will cease using the applicable programs and certify within one month that programs have been destroyed or returned.
7. I understand that the MathWorks license is for a one-year term, based on the Campus's fiscal year.
8. I acknowledge that the campus License Manager has the right and authorization to encumber the yearly license fee for this fiscal year and each subsequent year that the software is used. The Business Office will administer this process for the Division of Information Technology.
9. I understand that I have the right to resign from this agreement at the end of each yearly term. Upon surrender of the software or certification of its deletion from the systems, all future encumbrances of license fee will cease.
10. Please note that since this License is a floating network license, the License Manager will be reviewing, regularly, the number of users on at a given time. If the Manager notices excess users, above the number of licenses purchased by a department, using the software at one time, the department will be billed the full license fee for the excess users, no matter how brief the access period was.
