## Oracle Site License Fact Sheet

### Available Oracle Platforms

Oracle DBMS version 8 software is on Campus and available for the following platforms:

VAX/VMS  
Sun Solaris

Oracle Server for NetWare

Oracle tools are available for the following platforms: VAX/VMS, MS-DOS, MS-Windows, Macintosh, Sun Solaris.

### Other Platforms and Versions

Oracle is presently implemented on about 128 different computing platforms. Most of these are available to us. If the particular product is not already on Campus, the license manager, Sanjay Kapur, will request the appropriate software from the Common SUNY Support Center at Buffalo State. If the software exists at Buffalo, it will be shipped to us over the SUNY DECNET network that night. If Buffalo does not have it, and it is determined that we are entitled to it under the terms of the SUNY-Wide Site License, the Common SUNY Support Center (CSSC) will request it from Oracle and send it on to us as soon as possible.

### How to Obtain Oracle

To obtain Oracle, an Oracle Campus Wide Site License Agreement form must be completed and submitted for each participating CPU/Operating System. The agreement forms should be sent to the DoIT Business Office, see address on License Agreement page 2. Upon receipt of signed agreement, the software will be released.

Sanjay Kapur has been designated License Manager for Stony Brook. As such, he will accept and fulfill requests for the Oracle software products. In addition, he is required to report to the Common SUNY Support Center, on a quarterly basis, the CPU serial numbers of all CPUs with Oracle installed.

### Support

The large amount of different platforms and operating systems make local support extremely difficult. The CSSC has instituted a system on electronic mail request for answering questions concerning the various software products. They keep questions and answers in a searchable database that can be referred to by support center personnel. They require e-mail questions and will respond with e-mail answers. The CSSC has the ability to go directly to Oracle for questions it cannot answer.

### Documentation

Documentation is available directly from Oracle at about a 40% discount. There are prepackaged collections of documentation for various platforms that are not discounted but are attractively priced as compared to individual manual purchase. An almost complete list of Oracle Documentation is available in the Oracle publication "Oracle Technical Publications Catalog and Price Guide" 3903-50-0192. Additional information and ordering can be done by calling Hallie R. Alderman at Oracle (415) 506-6822.

## Oracle Campus Wide Site License Agreement

SUNY-Wide/Oracle Corporation Software Agreement, Contract #CM00211

In order to receive software and license for the use of any Oracle product under the SUNY-Wide/Oracle Corporation Software Agreement, the following information must be provided here for each CPU/Operating System and reported quarterly to the Common SUNY Support Center (CSSC):

Department Name: \_\_\_\_\_

Department Address: \_\_\_\_\_ Zip+4 \_\_\_\_\_

System Manager: \_\_\_\_\_ Phone Number: \_\_\_\_\_

System Manager E-mail addresses: \_\_\_\_\_

### Oracle Software Required for:

Operating System: \_\_\_\_\_

Version: \_\_\_\_\_

CPU Make: \_\_\_\_\_ Model: \_\_\_\_\_

CPU Serial Number: \_\_\_\_\_

Location: \_\_\_\_\_  
Building Room

The signature below acknowledges the terms and conditions of the Oracle program as noted on page 2 of this form:

Chair/Director: \_\_\_\_\_  
Name Phone

\_\_\_\_\_  
Signature Date

---

***It is the University at Stony Brook's policy to prohibit software piracy, copyright infringements and unauthorized use of any software product.***

1. Oracle products obtained will be used solely for internal data processing operations.
2. Oracle programs acquired under this contract are to be installed exclusively on CPUs owned, leased to or under the sole control of the University or an Affiliate.
3. I acknowledge the acquisition of only the right to use the programs and not the right of ownership.
4. I agree not to cause or permit the reverse engineering, disassembly, or recompilation of the programs.
5. I agree to copy software only in accordance with the terms and conditions of the contract and administrative procedures.
6. If agreement is terminated by Department, SUNY, or Oracle, I will cease using the applicable programs and certify within one month that programs have been destroyed or returned to Oracle.
7. I will provide the campus License Manager with a quarterly report of any change in usage status or CPU ID.
8. I acknowledge that the campus License Manager has the right and authorization to encumber the yearly license fee for this year and each subsequent year that the software is used. This process will be administered by the Business Office.
9. I understand that I have the right to resign from this agreement at the end of each yearly term. Upon surrender of the software or certification of its deletion from the systems, all future encumbrances of license fee will be reversed.
