

STONY BROOK
SOUTHAMPTON

High School Scholars Program

★ Spring 2008 ★

PROGRAM DESCRIPTION

The Stony Brook Southampton High School Scholars Program presents an exciting opportunity for high school juniors and seniors to complement their studies by enrolling in courses not traditionally included in the secondary school curriculum. Students enrolling in the **courses listed on the back of this brochure** participate in regular college classes on the Stony Brook Southampton campus in the afternoon and evening. This program helps high school students develop the skills necessary for a successful college career, familiarizes them with the demands of university coursework, and introduces them to the learning environment and resources of a major university before they enter college full time.

Stony Brook Southampton High School Scholars are enrolled at Stony Brook Southampton as part-time, non-matriculated students. Upon completion of a course, students may request an official transcript from the Office of the Registrar and may later use these credits towards a degree at Stony Brook or as transfer credits at another college or university. Program participants are responsible for their own transportation. Parking is available in designated parking lots.

WHO SHOULD APPLY?

The Stony Brook Southampton High School Scholars Program is designed for high school juniors and seniors whose academic performance indicates a readiness for college work and whose schedules can accommodate the time commitment required. This group includes those who have exhausted their high school's curriculum in a particular subject, as well as those who would like to learn about subjects not offered in their school. Participation in the program usually requires about 10 to 15 hours per week, including class attendance, readings, and completing assignments.

WHAT ARE THE EXPENSES?

Program participants are responsible for payment of a \$100 per course program fee, which is considerably less than regular tuition. This fee is non-refundable once the student is admitted to the program. In addition, you are responsible for purchasing any required textbooks and paying any course-specific fees. Regular tuition and college fees are waived.

HOW DO I APPLY?

Complete and submit the application on the inside of this brochure no later than Monday, January 14, 2008. Fax or mail your application, a copy of your high school transcript, the Meningitis Information Response Form, and payment for \$100 to the address or fax number provided on the application.

Your application requires signatures of approval from your guidance counselor or principal and from your parent or guardian. Please specify the course number and section preferences on the application. Students accepted into the program may take one course each semester. Requests for two courses will be considered on an individual basis. Many courses are limited in size; therefore, you should apply as early as possible.

High School Scholars Program

★ Spring 2008 ★

COURSES

AMS 102 Elements of Statistics

LEC 08 Tuesday & Thursday 2:20-3:40 p.m.

Final Exam: Thursday, May 15, 2:00-4:30 p.m.

The use and misuse of statistics in real life situations; basic statistical measures of central tendency and of dispersion, frequency distributions, elements of probability, binomial and normal distributions, small and large sample hypothesis testing, confidence intervals, chi square test, and regression. Not to be taken in addition to AP Statistics. Prerequisite: Completion of Pre-Calculus 3 credits

ARH 205 Introduction to Architecture

LEC 02 Tuesday & Thursday 5:20-6:40 p.m.

Final Exam: Thursday, May 15, 5:00-7:30 p.m.

An introduction to the discipline of architecture through various interpretations of its technological and cultural functions. Focusing on the history of architecture's engagement with engineering, anthropology, sociology, and politics, this course explores changing conceptions of the nature and the task of architecture. Prerequisite: Honors or AP Art History 3 credits

ECO 108 Introduction to Economics

LEC 06 Monday & Wednesday 5:00-6:20 p.m. and

REC 06 Wednesday 3:50-4:45 p.m.

Final Exam: Monday, May 19, 5:00-7:30 p.m.

An introduction to economic analysis. Microeconomics (the study of individual, firm, industry, and market behavior) and macroeconomics (the study of the determination of national income, employment, and inflation). Not to be taken in addition to AP Macro and Micro Economics. Prerequisite: Completion of Pre-Calculus 4 credits

ENS 101 Prospects for Planet Earth

LEC 02 Tuesday & Thursday 3:50-5:10 p.m.

Final Exam: Tuesday, May 20, 5:00-7:30 p.m.

An introduction for non-science majors to global environmental change. Exploration of the natural science of Earth's environment; the scientific, socioeconomic, and political issues that influence human impact on the global environment and responses to environmental changes; the strategies for humans to live in greater harmony with planet Earth. Global issues are related to the particular issues of the United States, the Northeast, and the greater metropolitan New York City-Long Island area. 3 credits

HIS 104 United States Since 1877

LEC 08 Monday & Wednesday 3:50-5:10 p.m.

Final Exam: Wednesday, May 14, 5:00-7:30 p.m.

A survey of modern American history from the end of Reconstruction to the present. The course focuses on the impact of industrialization on social, cultural, and political life; the emergence of the United States as a world power; and the adaptation of that power to the crises of the later 20th century. Not to be taken in addition to AP U.S. History 3 credits

MUS 101 Introduction to Music

LEC 91 Tuesday/Thursday 3:50-5:10 p.m.

Final Exam: Tuesday, May 20, 5:00-7:30 p.m.

The basic concepts of music such as melody, harmony, rhythm, counterpoint, and form are studied through investigation of the historical and contemporary masterpieces of the Western classical tradition, of various non-Western musics, and of various "popular" traditions. The different styles and types of music are considered not only in light of the cultural values they embody, but also in relation to present-day cultural and musical values. No previous musical training is assumed. 3 credits

PHI 104 Moral Reasoning

LEC 11 Tuesday & Thursday 3:50-5:10 p.m.

Final Exam: Tuesday, May 20, 5:00-7:30 p.m.

An introduction to philosophy through inquiry into the formation, justification, and evaluation of moral judgments. Students are introduced to the major theories and problems of ethics, such as utilitarianism, Kant's categorical imperative, ethical relativism, egoism, and classical conceptions of the good and virtue. Against this background students engage in discussions of contemporary moral issues. 3 credits

PSY 103 Introduction to Psychology

LEC 03 Monday & Wednesday 2:20-3:40 p.m.

Final Exam: Monday, May 19, 2:00-4:30 p.m.

An introduction to research and theory in psychology in such areas as learning, perception, cognition, biopsychology, development, personality, and abnormal and social psychology. As part of the course, students must participate in experiments and/or a library research project. Not to be taken in addition to AP Psychology. 3 credits

THR 105 Acting I

LEC 07 Monday/Wednesday 5:20-6:40 p.m.

Final exam: Monday, May 19, 5:00-7:30 p.m.

The basic vocabulary and skills of the actor's craft. Students explore acting techniques through theatre games and improvisation. 3 credits
