The ox is the sign of prosperity through quiet fortitude and hard work. It is a year when success comes through quiet tenacious labor and stubborn dedication.

2009 is also an earth year. Whereas a fire year is a time for enthusiasm, bold action and creativity, earth years are the time for practicality, hard work and stability.

It has been more than half a century since an earth year, calling for practical hard work, and an ox year, calling for quiet hard work, occurred together.

It is as if the ancients knew what 2009 would bring.
