About Stony Brook University’s Educational Leadership Programs

Stony Brook University offers two post-master’s certificate programs that lead to certification in areas of school district, building and business leadership.

- The Educational Leadership (EDL) program prepares K-12 educators for advancement to positions at both the school district (SDL) and school building (SBL) levels. Such positions include superintendent of schools, district superintendent, assistant superintendent, principal, assistant principal, department chairperson, or athletic director. As of Fall 2007, this is the first program of its kind in New York State that serves as a pathway for certification at both the district and building levels.

Planning Your Course of Study

- Students have five years to complete the program.
- Students can take up to four courses at a time, but the recommendation for working students is that they take no more than two during each term.
- Students should balance theory and practice courses (e.g., EDL 501 plus EDL 528).
- Students should take EDL 501 first.
Planning Your Course of Study, Continued

- EDL 595 can be taken immediately before, during or after the internship.
- Most courses are offered online each term.
- Be proactive regarding the registration for the internship.
Combining Classes

• If you want to take two courses in one term to speed your progress, mix theory courses (501, 502 and 503) with practical courses (541, 528, 555, etc.)
• Take School Building Leadership before School District Leadership.
• The above are suggestions. Other than the Foundation Courses (501/502/503), there is no sequence until EDL 585/586.
Possible Combinations

EDL 501 + EDL 528
EDL 502 + EDL 555
EDL 503 + EDL 571
EDL 541 + EDL 572
EDL 515 + EDL 595
EDL 585 + EDL 586

Hiding Behind the Screen

Roger Scruton

Human relations, and the self-image of the human being, have been profoundly affected by the Internet and by the ease with which images of other people can be summoned to the computer screen to become the objects of emotional attention. How should we conceptualize this change, and what is its effect on the psychic condition of those most given to constructing their world of interests and relationships through the screen? Is this change as damaging as many would have us believe, undermining our capacity for real relationships and placing a mere fantasy of relatedness in their stead? Or is it relatively harmless, as unproblematic as speaking to a friend on the telephone?

First, we should make some distinctions. We all now use the computer to send messages to our friends and to others with whom we have dealings. This sort of communication is not different in any fundamental respect from the old practice of letter writing, except for its speed. Or...
