

**Stony Brook  
University**

## Social and Behavioral Sciences

From its beginnings more than a half-century ago, Stony Brook University has been characterized by innovation, energy, and progress, transforming the lives of people who earn degrees, work, and make groundbreaking discoveries here.

Today Stony Brook is one of only 61 members of the prestigious, invitation-only Association of American Universities. Listed among the top 1 percent of the world's universities in the *Times Higher Education World University Rankings*, Stony Brook University is consistently named one of the best values among public universities by *Kiplinger's Personal Finance*.

Explore the human condition in its many different contexts through our rich and stimulating programs in the Social and Behavioral Sciences such as Africana Studies, Anthropology, Economics, History, Linguistics, Political Science, Psychology, and Sociology.

Study in the social and behavioral sciences can be easily integrated with research opportunities and study abroad. Students of anthropology and other subjects have opportunities to participate in our field school programs at the Turkana Basin Institute in Kenya and at many other international sites.

Stony Brook graduates Russell Lewis, former CEO and President of the New York Times Company, and Robert Gallucci, Dean of the Georgetown University School of Foreign Service and former U.S. State Department Ambassador at Large, credit much of their success to Social and Behavioral Sciences' multicultural and multidisciplinary approach to learning—and to life.
