2007-2009 Undergraduate Bulletin Supplement

Other Changes to the 2007-2009 Undergraduate Bulletin

All other changes to the 2007-2009 Undergraduate Bulletin are listed below by category, in the same order they are found in the Table of Contents on page 3 of the printed Bulletin (Admissions, Financial Information, Student Services, etc.). A given category is listed only if there have been corrections made to it.

This list is continually being updated. Twice during the year (roughly November 1 and April 1) the entire Bulletin (including this Supplement) is archived. That is, a "snapshot" of the Bulletin is taken and saved for reference. These dated archives serve as official records of the Bulletin as it changes semester by semester.

B.A./M.A.T., B.S./M.A.T. and B.A./M.A. Programs Leading to Teaching Certification

Through collaboration between the College of Arts and Sciences, the School of Professional Development, and the Professional Education Program, Stony Brook offers combined bachelor's/master's degree programs leading to New York State certification in either secondary education or Teaching English to Speakers of Other Languages (TESOL). Please consult with department advisors for eligibility and specific program requirements:

**Biology/Adolescent Education:**
- Biology (B.S./M.A.T.)

**Chemistry/Adolescent Education:**
- Chemistry (B.S./M.A.T.)

**English/Adolescent Education:**
- English (B.A./M.A.)

**Earth and Space Science/Adolescent Education:**
- Earth Science (B.S./M.A.T.)

**French Language and Literature/Adolescent Education:**
- French (B.A./M.A.T.)

**History/Adolescent Education:**
- Social Studies (B.A./M.A.T.)
- History (B.A./M.A.)

**Italian Studies/Adolescent Education:**
- Italian (B.A./M.A.T.)

**Linguistics/Teaching English to Speakers of Other Languages (TESOL) (B.A./M.A.)**

**Mathematics/Adolescent Education:**
- Mathematics (B.S./M.A.T.)

**Physics/Adolescent Education:**
- Physics (B.S./M.A.T.)

**Spanish Language and Literature/Adolescent Education:**
- Spanish (B.A./M.A.T.)
Spring 2008 Updates

Admission for Non-Degree Study

Non-matriculated study is available for individuals who are seeking personal enrichment through learning. Non-matriculated students pay the same tuition and other fees as matriculated students. (High school students admitted through the Young Scholars Program described below, however, pay only a small administrative fee.) In addition, non-matriculated students are not eligible to receive financial aid. Students from other institutions who plan to study at Stony Brook as visiting students should see a financial aid counselor on their home campus about continuing to receive financial aid.

Admission is subject to a review of prior academic performance and admission is not guaranteed. Non-matriculated students’ academic performance is reviewed at the conclusion of each semester to determine eligibility to continue. Students who have earned less than a 2.0 semester grade point average are not permitted to continue.

To obtain an application for non-matriculated study, please schedule an appointment with an admissions counselor in the Undergraduate Admissions Office. Applications should be completed and returned with transcripts from all previous institutions.

College of Engineering and Applied Sciences Scholarships

The College of Engineering and Applied Sciences (CEAS) administers a number of scholarships ranging from $500 to full tuition awards for incoming freshmen and continuing students enrolled in one or more of the college’s ten majors (biomedical engineering, chemical and molecular engineering, computer engineering, electrical engineering, engineering science, mechanical engineering, computer science, information systems, applied mathematics and statistics, and technological systems management).

The scholarships are funded by a variety of private and corporate donors; there are different eligibility requirements for the different scholarships although, in general, entering freshmen should have a high school average not less than 90 and continuing students should have a cumulative g.p.a. not less than 3.00.

Scholarship opportunities for continuing CEAS students are announced at the end of the fall semester, with an application deadline in late January and selection of recipients in April for scholarship support in the subsequent academic year. For the most recent information, students may contact the CEAS Undergraduate Student Office at (631) 632-8381, or visit the Web site at http://www.ceas.sunysb.edu.

Following is a list of scholarships administered by the College of Engineering and Applied Sciences (CEAS). Depending on the funding source, some of the scholarships are available every year and others on a less regular basis. The availability of scholarships varies from year to year and is contingent upon donor resources and interests, as well as variable economic trends. There are different eligibility requirements for each of these scholarships.

+ Applied Mathematics and Statistics Memorial Scholarship;
+ Arkwin Industries, Inc. Scholarship;
+ Carol Cooke/Siemens Corporation Telecommunications Scholarship;
+ Curtiss-Wright Centennial of Flight Scholarship;
+ Data Device Corporation Scholarship;
+ Dayton T. Brown Scholarship;
+ Edo Marine and Aircraft Systems Scholarship;
+ Frances and Velio Marsocci Award;
+ Grumman Endowment Scholarship;
+ GT Equipment Technologies Scholarship;
+ Industrial Partnership Program Scholarships;
+ Joan M. Kenny Memorial Scholarship;
+ Metropolitan Club/Association of Old Crows Scholarship;
+ Omnicon Group Inc. Scholarship;
+ Omnicon/WISE Scholarship;
+ Rahsaan T. Jackson Scholarship Award for Extraordinary Achievement;
+ Robert J. and Katherine B. Frey Scholarship;
+ Society of Flight Test Engineers Scholarship;
+ Society of Automotive Engineers Scholarship;
+ Military Engineers Scholarship/Ehasz Giacalone Architects, P.C.;
+ Stewart Harris Scholarship;
+ Srivastav, Tucker and Weitzman Scholarship;
+ Seam International Inc. Scholarship;
+ St. Paul Traveler’s Insurance Co., Scholarship;
+ Tau Beta Pi Scholarship;
+ Thomas Irvine Scholarship in Mechanical Engineering;
+ Weinig Foundation Scholarship.

SUPPLEMENT: OTHER CHANGES TO THE BULLETIN

Fall 2007 Updates

Campus Safety

The Advisory Committee on Campus Safety will provide upon request all campus crime statistics as reported to the United States Department of Education. Contact University Police at 631-632-6350. Visit the United States Department of Education web site for campus data statistics http://ope.ed.gov/security/search.asp and search for Stony Brook.

Combined Bachelor's/Master's Degrees

Several combined degree programs are available.

B.A./M.A.T., B.S./M.A.T. and B.A./M.A. Programs Leading to Teaching Certification

Through collaboration between the College of Arts and Sciences, the School of Professional Development, and the Professional Education Program, Stony Brook offers combined bachelor's/master's degree programs leading to New York State certification in either secondary education or Teaching English to Speakers of Other Languages (TESOL). Please consult with department advisors for eligibility and specific program requirements:

- English/Adolescent Education: English (B.A./M.A.)
- Chemistry/Adolescent Education: Chemistry (B.S./M.A.T.)
- Earth and Space Science/Adolescent Education: Earth Science (B.S./M.A.T.)
- French Language and Literature/Adolescent Education: French (B.A./M.A.T.)
- History/Adolescent Education: Social Studies (B.A./M.A.T.)
- History (B.A./M.A.)
- Italian Studies/Adolescent Education: Italian (B.A./M.A.T.)
- Linguistics/Teaching English to Speakers of Other Languages (TESOL) (B.A./M.A.)
- Mathematics/Adolescent Education: Mathematics (B.S./M.A.T.)
- Physics/Adolescent Education: Physics (B.S./M.A.T.)
- Spanish Language and Literature/Adolescent Education: Spanish (B.A./M.A.T.)

*Pending approval by the New York State Department of Education

Combined Bachelor's/Master's Degree Program Regulations

1. Students must apply and be admitted to the combined degree program. Applicants must have completed a minimum of 60 credits of course work, with a g.p.a. of 3.00 or higher in all college work. The application must include approval by both the chairperson of the department offering the bachelor's degree and the graduate studies director of the program offering the master's degree.

2. A course used for undergraduate credit may not be used for graduate credit.

3. Stony Brook combined bachelor's/master's degrees:
   a. require a minimum of 138 credits
   b. allow students to count a maximum of 15 graduate credits toward the undergraduate portion of the degree (See Note 1)
   c. stipulate that if a student opts to withdraw from a combined degree program the student may choose to apply the graduate credits earned as part of their combined degree program toward their undergraduate degree.

4. If the student has completed the bachelor's degree as indicated in 3a, b, and c (i.e., using between 7 and 15 graduate credits), both degrees are awarded simultaneously and only after both sets of requirements have been completed. If the student has completed the bachelor's degree requirements with a minimum of 120 credits and using no more than six graduate credits, the undergraduate degree may be awarded prior to completion of the graduate degree.

Note for Combined Bachelor's/Master's Degrees:

1. Although the University allows undergraduate students enrolled in a combined program to use a maximum of 15 graduate credits toward the undergraduate portion of the combined degree, the maximum allowance may be less than 15, depending on the specific program. Please consult the appropriate department.

Graduate Courses

Upper-division students with superior academic records may take graduate courses with the permission of the Dean of the Graduate School, or continuing education courses with permission of the Dean of the School of Professional Development, for undergraduate credit. (Teaching practica, readings, research, or other independent study are excluded.) Permission of the instructor and the chair of the department offering the course is also necessary. Permission forms are available online from the Graduate School (http://www.grad.sunysb.edu), the School of Professional Development, and various advising offices and must be presented, after the necessary signatures are obtained, at the Registrar’s Office when registering for the approved course.

Students should discuss their plans to take graduate courses with their advisors in order to assess whether the credit will be applicable to their degree requirements. Students with majors in the College of Engineering and Applied Sciences who would like to apply graduate credits to their majors must get the approval of their department’s undergraduate program director; approval forms are available in the CEAS Undergraduate Student Office.

Graduate courses taken while a student is an undergraduate remain part of the undergraduate record. The student cannot subsequently receive graduate credit for such courses, except in the case of approved five-year programs leading to both a baccalaureate and a master’s degree.

Unless credits are earned as part of a combined degree program, no more than six graduate credits (including those taken through the School of Professional Development) may count toward the bachelor's degree.
