

Medical Humanities, Compassionate Care and Bioethics

ABOUT OUR PROGRAM

Programs addressing bioethics all too often focus exclusively on ethical dilemmas in healthcare and the life sciences without adequately attending to the patient's illness experience. At Stony Brook, we devote equal attention to medical humanities, the dynamic of compassionate care and bioethics.

Our innovative program from the Center for Medical Humanities, Compassionate Care and Bioethics provides students with a comprehensive overview of the paradigm cases and approaches to bioethics. We add to this an examination of the philosophical and religious traditions that inform contemporary debates. Students also learn about the human capacity for compassion that underlies effective clinical care. Finally, through engagement in the medical humanities, our students enhance their capacity to respond to the patient as a person. Upon successful completion of the program requirements, students will be awarded a Master of Arts in Medical Humanities, Compassionate Care and Bioethics.

Recognizing the need for an interdisciplinary approach to education, our faculty include experts in medicine, ethics, history, law, literature, philosophy, religious studies, the social sciences and disability studies. Our clinical faculty integrate perspectives from the humanities with their experience as healthcare providers.

This program, which serves students from a wide range of disciplines and professional backgrounds, builds on a commitment to medical humanism and ethics that has defined education for Stony Brook students for more than three decades.

At a time when we are learning more and more about the scientific basis for the healing power of belief and compassion comes an outstanding graduate program that will prepare a cadre of professionals to spread this knowledge in the academy as well as to the public. This can only enhance the stature of this humanistic area within medicine and provide a balance to the technological disciplines."

— Gregory Fricchione, MD

PROFESSOR AT HARVARD MEDICAL SCHOOL,
ASSOCIATE CHIEF OF PSYCHIATRY AT MASSACHUSETTS
GENERAL HOSPITAL, DIRECTOR OF THE BENSON-HENRY
INSTITUTE FOR MIND BODY MEDICINE

ABOUT STONY BROOK UNIVERSITY

Stony Brook is one of America's most dynamic public universities and an internationally recognized research institution that is changing the world. Nobel laureates, Guggenheim fellows and MacArthur fellows teach on our campus, making it a magnet for outstanding students. Stony Brook is a member of the prestigious invitation-only Association of American Universities.

Stony Brook Medicine, Long Island's premier academic medical center, encompasses Stony Brook University Hospital, which serves as Suffolk County's only regional trauma center; Stony Brook Children's Hospital; a variety of community-based healthcare settings; and five health sciences schools: Dental Medicine, Health Professions, Nursing, Renaissance School of Medicine, Social Welfare.

OUR CURRICULUM

Our curricular offerings define our commitment to an integrative approach:

- Compassionate Care, Medical Humanities and the Illness Experience
- Landmark Cases in Bioethics
- Traditions and Values in Bioethical Conflicts
- Three Special Topics Courses: Bioethics, Biotechnology, Medical Humanities
- Capstone Course
- Literature, Compassion and Medical Care
- Bioethics, Disability and Community
- Altruism and Bioethics
- Disease and Society
- Health Policy, History, Ethics
- Bioethics and Film
- Independent Study

“An exciting graduate program that is distinguished by its unique blending of elements and emphasis on the medical humanities and compassionate care, along with bioethics. Led by Stephen Post, PhD, and a strong interdisciplinary faculty, Stony Brook’s program is notable for giving voice to disciplines beyond the sciences that are essential to balanced deliberations and thoughtful scholarship.”

— Joseph J. Fins, MD, FACP

OUR STAFF

MA GRADUATE PROGRAM COORDINATOR

April Bortzfield, MEd

REQUIREMENTS

Students must complete 30 credit hours (10 courses) in up to five years. Four core courses, including our capstone course, are required. For the remaining six elective courses, students must take four with our department faculty. The remaining two may be from select courses across campus. A joint MD-MA and MSW-MA are available. NOTE: Core courses meet in the evenings.

Who Should Apply

- Current MDs, RNs, JDs, PhDs and other professionals seeking further expertise
- Medical students and others pursuing professional degrees in fields such as business, healthcare, health sciences, humanities, journalism, pastoral care, law and social work
- Postbaccalaureate students in transition from the BA or BS to a professional degree

What to Include When Applying

- A nonrefundable \$100 application fee
- Official transcripts of all previous undergraduate and graduate courses taken for credit.
- Graduate and/or undergraduate degree verification, which can be posted on the academic transcript or certified by the academic institution from which the degrees have been awarded
- Three letters of recommendation from former professors or others familiar with the applicant’s ability and promise of performance as a graduate student
- Personal statement
