

Stony Brook
University

Biology B.S. Ecology & Evolution Specialization

Examine the interactions of living organisms with their physical and biological environments while understanding spatial relationships and patterns as evolutionary explanations for biodiversity.

Course options include:

- BIO 319 Landscape Ecology Laboratory
- BIO 344 Chordate Zoology
- BIO 351 Ecology
- BIO 354 Evolution
- BIO 358 Biology & Human Social & Sexual Behavior
- BIO 385 Plant Ecology
