**Opportunities Week of 1-15-21**

**UB School of Pharmacy and Pharmaceutical Sciences Graduate Program:** Here at UB, the office of admissions is here to help you every step of the way on your path to a career in pharmacy or pharmaceutical sciences! [Apply now](#) if you are interested! **Our PharmD deadline is June 1, 2021** because we have rolling admissions, students are encouraged to apply early, and are eligible for [competitive admissions scholarships](#). In order to explore your interest, attend our upcoming webinar this upcoming week.

**Meeting date & time:** Tuesday, January 19, 2021 from 4 - 5 PM

[Register here](#) for the upcoming webinar

**Genomics Research Program:** Washington University in St. Louis and The McDonnell Genome Institute’s NHGRI-funded Opportunities in Genomics Research Program (OGR) is accepting applications for its Undergraduate Scholars Summer 2021 Program with an application deadline of February 19th. The OGR Program focuses on providing students interested in pursuing their PhD with interdisciplinary research in genomic sciences by allowing students to choose from over 30 labs at Washington University. The OGR program is based on three pillars: full-time mentored research, critical training in scientific communication, and community. Opportunities for focused outreach activities to local high school students are also available.

**K-12 Science Teaching Jobs:** Southern Teachers continues to work with science teachers looking for great jobs at K-12 private/independent schools. Our member schools are seeking mid-year teachers as well as teachers to join their school communities for the 2021-22 academic year. In addition, Southern Teachers is holding a [Virtual Job Fair](#) on Friday, February 5. School administrators will be interviewing to fill great teaching jobs at this hiring event. This Virtual Job Fair will be held from 10 am– 5 pm via our proprietary software.

**Meeting date & time:** February 5, 2021 from 10 AM - 5 PM

[Attend the Job fair](#)

**Diabetes Virtual Winter Camp:** is a 4-week virtual research internship program that invites high school, college, graduate, and professional students worldwide interested in learning about biomedical research and academic medicine with a focus on diabetes research, education, and care. The program consists of 14 Zoom sessions that highlight current topics on diabetes research and treatment as well as an academic career path in medicine and science. The sessions are led by 11 renowned diabetes scientists and clinicians from reputable universities, who will share their exciting research programs. This program is free to all registered attendees with a suggested donation, and your generous contributions will be donated to the [American Diabetes Association](#) to support diabetes research, education, and care. All registered attendees must participate in the entire 4-week program and will receive a certificate upon completing this virtual internship program. The program spans from **Jan. 23 ~ Feb. 13, 2021**,
and all sessions will be on Saturdays and Sundays at 11 am ~ 12 pm (except Jan. 30th sessions at 11 am ~ 12:30 pm and Feb. 13th sessions at 11 am ~ 1 pm). All session times are Eastern Time (Boston time in the U.S.). Registration is open now and will close on Jan. 22nd.

**Deadline to Register January 22, 2021**

Register and/or learn more [here](#).

**The Summer Multicultural Access to Research Training (SMART) program:** The SMART program is intended for undergraduate students who are interested in preparing for graduate degrees in science, math and engineering. SMART offers students the opportunity to conduct research under the guidance of a faculty mentor, and participate in workshops designed to strengthen scientific writing and oral presentation skills. SMART interns earn upper-division undergraduate credit in independent study, and receive a stipend, room and board, and travel expenses. Many departments look for SMART students, so there are multiple opportunities here. Also, the application to SMART is through the Leadership Alliance and that application is for other summer research programs as well (not necessarily at CU Boulder). More information on SMART and the eligibility requirements for the program can be found [here](#).

**All applications are due on February 1, 2021.**

Applications can be submitted [here](#).

**The Postbaccalaureate Research Program (PREP):** PREP is a NIH-funded post-baccalaureate training program that prepares students with a Bachelor’s or Master’s degree in the Physical or Life Sciences (if interested in Basic Biomedical Sciences) or a Bachelor’s or Master’s degree in Public Health or related social science degree (if interested in Clinical and Population Health Research) for doctoral study in the biomedical sciences. We encourage those interested to attend our upcoming information session.

The session will take place on **Wednesday February 3, 2021 from 6 - 7 PM.**

You may register [here](#).
