Opportunities Week of 10-16-20

Covid-19 Clinical Lab Interns Needed at Mirimus: Mirimus is offering full- and part-time roles and they are open to undergrads, grad students. This internship offers you the chance to help fight the pandemic here in NYC by assisting in the company's COVID-19 Clinical Lab as well as in the field. The opportunity may be of interest both to applicants with lab experience, as well as to those who are strong in computer, communications and organizational skills.

Extension for the SBYIR Research Symposium: We have officially extended our deadline for the SBYIR Research Symposium! Through this symposium, students taking part in faculty-mentored research can present their work to the student body and gain feedback from SBU faculty. The research can be from on- or off-campus, and any research from 2019 or 2020 can be presented! This event will take place on Saturday, November 14th, and is open to all undergraduate students. If you would like to present see the registration form below. For this registration form, all you need is a brief abstract and an approval form signed by your PI. We encourage students taking part in the research of all disciplines to participate! If you have any questions, reach out to youninvestigators@stonybrook.edu.

The deadline for registration is on Sunday, October 18th

Tri-Institutional PhD Program in Chemical Biology (TPCB): Established in 2001, TPCB is a leading chemical biology PhD graduate program offered jointly by Weill Cornell Medicine, The Rockefeller University, and Memorial Sloan Kettering Cancer Center. Our Tri-Institutional campus in the heart of New York City provides an exciting combination of outstanding faculty, state-of-the-art facilities, and collaborative research opportunities to the next generation of scientific leaders working at the interface of chemistry, biology, and medicine. We encourage students from underrepresented minority groups and disadvantaged backgrounds, and those with disabilities to apply. We provide fee waivers to any students for whom the fee would represent an obstacle to applying to TPCB. For fee waivers, please contact Margie Mendoza for info: mah2036@med.cornell.edu.

The application deadline is on December 1, 2020

Virtual information session - UMass Medical School Graduate School of Biomedical Sciences: The Graduate School of Biomedical Sciences at the University of Massachusetts Medical School (UMMS) invites you to learn more about the graduate school and its opportunities for PhD study, post-baccalaureate training and summer research opportunities for college undergraduates in an information session. UMMS has research excellence in a broad range of areas, including: RNA biology, neuroscience, cancer biology, infectious disease and immunology, gene therapy and systems biology. UMMS boasts a Nobel Prize winner, Craig Mello; three members of the National Academy of Sciences; and five Howard Hughes Medical Institute investigators. The research enterprise is supported by almost $300M in extramural research support. Outstanding research infrastructure and core facilities, including a state-of-the-art CryoEM core facility, enable innovative science.

**Downstate Diversity Program Webinars:** This webinar is for students interested in either of the following programs:

- **Exploring Health Careers:** This is a program for students who want to find out about different health professions.
- **Early Medical Education:** Is a program that seeks to increase diversity in medicine. Successful participants in this selective program typically go on to earn their medical degrees at Downstate.

If you are interested please feel free to attend the two upcoming webinars listed below:
