Opportunities Week of 10-22-21

**Virtual Graduate School Preview Day:** We would like to invite you to a great lineup of virtual graduate admissions events at Stony Brook University this fall, hosted by the Center for Inclusive Education (CIE) in the Graduate School. Our series of virtual, topic-based Graduate School Preview Days (VGSPD) is open to Stony Brook undergraduate students. At these special events, attendees will hear from SBU Graduate Program Directors about the admissions process, connect with graduate programs during the breakout session, and learn about graduate funding opportunities. They’ll also hear from a current PhD Scholar about their graduate experience. Each week will focus on different academic disciplines and areas of research: Behavioral & Social Science and Arts & Humanities VGSPD (October 28th); Engineering, Natural, Applied & Computational Science VGSPD (November 4th); Biological & Biomedical Science VGSPD (November 11th). All eligible attendees will receive an application fee waiver worth $100!*

All activities will take place on Thursdays from 12:00 pm - 2:00 pm (ET) via Zoom

Register here in advance

Questions regarding Virtual Graduate School Preview Day can be sent to CIE_GraduateSchool@stonybrook.edu.

**PAID Employment Opportunities with YAI:** Are you looking for PAID employment opportunities that offer clinical experience within Long Island, Queens and other boroughs of NYC, and New Jersey? Do you want to have the opportunity to receive Medical Certifications on the job? Employment at YAI offers you all these benefits and more! YAI will host a panel that will feature 5 SBU Alumni to represent fields within: Clinical Professions: Nursing, PA, Medical Certifications and more, Psychology/Clinical Psychology and Counseling, Day Services/Education and Curricular Development, Human Resources/Hiring and Training and Residential Programming.

Date and Time: Wednesday, November 3rd from 1 pm to 2 pm

Register here for virtual face to face networking

**LifeSci NYC Internship Program - Virtual Information Sessions:** We have launched our 2021-22 online application. We have a number of fall internship opportunities, as well as full-and part-time jobs that are accepting applicants now. Summer positions are just beginning to be posted, and we anticipate having more and more of those in the coming months. While specific summer internship listings will be shared only with those who complete our full summer application, I do want to call your attention to one time-sensitive opportunity to which students may apply now: Deerfield is accepting applications for Summer Fellows - This program, designed to attract students from underrepresented populations with interest in pursuing healthcare or finance fields, trains students to serve as Healthcare Finance Analysts. No prior experience is required. It is open to students attending school in NYC with a projected graduation date by Spring or Summer 2023. This is a highly paid internship, with potential for continued employment through the following school year, and on a permanent basis thereafter. Interested students must apply by October 31, and should begin by completing our summer application.

Application can be found here

**Master of Science in Athletic Training:** Athletic Trainers (ATs) are healthcare professionals who render service or treatment, under the direction of or in collaboration with a physician, in accordance with their education and training and the states' statutes, rules and regulations. As part of the healthcare team, services provided by ATs include injury and illness prevention, wellness promotion and education, emergent care, examination and clinical diagnosis, therapeutic intervention, and rehabilitation of injuries and medical conditions. To learn more about our program and prerequisites, click [here](#).

Applications are received through ATCAS, click [here](#).

**Pre-Genetic Counseling Club Meeting:** This upcoming Monday, 10/25 at 6pm in Frey 224, the Pre-Genetic Counseling Club will be hosting a disorder discussion. We will be sticking to the Prenatal Genetic Counseling theme and present on Turner Syndrome, one disorder that Prenatal GCs screen for in expectanting couples. There will also be a fun game at the end, we hope to see you Monday! We are hosting the event in Hybrid mode. While we hope to see you in person, if you cannot make it, please feel free to join us on zoom.

**Event:** Oct 25, 2021 06:00 PM Eastern Time (US and Canada)

Join the zoom meeting [here](#).

**Broad Summer Research Program (BSRP):** BSRP offers students an opportunity to conduct intensive research in a collaborative community. Participants spend the summer in Cambridge, MA performing original computational or experimental research in labs across the Broad Institute’s research areas, from cancer to infectious disease to computational biology. In addition, the program provides a stipend and features a rich curriculum that emphasizes career development, personal development, and teamwork. Who should apply: first-years, sophomores, juniors, and other undergrad students graduating after Fall 2022. We look for applicants with a demonstrated commitment to promoting diversity and inclusion in STEM.

Applications are due on January 10, 2022

Applications can be found [here](#).

**Broad Biomedical Post-baccalaureate Scholars Program (BBPS):** The BBPS program is a two-year program run by the Broad Diversity, Education and Outreach office. BBPS offers participants a comprehensive, structured, and immersive experience that includes groundbreaking research and career guidance. BBPS participants will carry out research as salaried, full-time Associate Computational Biologists or Research Associates, working alongside leading scientists within the Broad Institute. Who should apply: graduating seniors and recent grads. We look for applicants with a demonstrated commitment to promoting diversity and inclusion in STEM.

**Early Decision applications are due December 15, 2022**

Regular admission applications are due on January 24, 2022

Learn more and apply [here](#)

Spring 2022 graduates: for additional opportunities outside of the postbac program, please visit our website.

**The Chemistry-Biology Interface Program at Johns Hopkins University:** Since its establishment in 2005, the CBI Program has received an enthusiastic response, and we have attracted an excellent group of students. Our program has grown to over 35 current Ph.D. students. Previous graduates have gained employment in commercial, government and academic institutions. To date, ~15% of the students in our program are from groups that have
traditionally been underrepresented in Chemistry and Biology, and we are very interested in increasing the number of students from these backgrounds. Hopkins is a very supportive institution, and Baltimore is a multi-cultural city. The University has a number of mechanisms to assist minority graduate students (for example, please see https://krieger.jhu.edu/about/diversity-inclusion/).
For information about the program click here

SB Masters in Neuroscience Virtual Information Session: Meet with the Program Director to answer your questions about our program, the admissions process, and to discuss your application and academic goals.
Meeting dates: November 17th (2-4pm), December 6th (12-2pm) and January 6th (9-11am)
Email NeuroMS@stonybrook.edu now to request a 1-on-1 virtual meeting on the dates above

*Disclaimer: Undergraduate Biology does not endorse or take responsibility for any off-campus programs listed in Opportunities emails. While we do our best to vet any opportunity that is shared, please let us know immediately if you are suspicious of any employers/programs.
