Opportunities Week of November 9, 2018

**SPN 322 Medical Spanish in Winter Session:** The Practical Spanish course for Medical Professionals is designed for students planning a career in medicine, either as healthcare providers or in a related field, such as medical technology or social work in the healthcare field. Please note, Intermediate proficiency in Spanish is required.

For more info, see attached flyer

**Info Session on the DOE Computational Science Graduate Fellowship (CSGF):** Seeking highly motivated graduating seniors and first-year graduate students pursuing PhD's who are interested in using computational modeling or simulation to advance their primary field of study. This award is open to US citizens and permanent residents only. A cumulative GPA of 3.2 or higher is strongly recommended.

*Info session held on Wednesday, November 14th, 1:00-2:00 PM, Room 2401 Old Computer Science Building.* Interested students must click here for full eligibility requirements before attending.

RSVP for the info session here.

**Tickets for Staller Center Shows:** The Staller Center has exciting upcoming shows, with tickets for SBU students only $10 each! In addition, Freshman and Transfer students get their first show free for any Staller Center program.

For more info and a list of highlighted shows, see attached flyer.

**Caltech Summer Research Opportunities:** Caltech will be offering two summer research opportunities available to continuing students.

**Wave Fellows Program:** Provides support for talented undergraduates intent on pursuing a Ph.D. to conduct a 10-week summer research project at Caltech. The WAVE Fellows program aims to foster diversity by increasing the participation of underrepresented students in science and engineering Ph.D. The program is extended, but not limited, to underrepresented minorities, women, first-generation college students, geographically underrepresented students, educationally and financially disadvantaged students, and students with disabilities. Competitive applicants will have completed sophomore-level courses in desired research field, have demonstrated through academic and/or co-curricular activities a passion for research, and can articulate how their research interests align with Caltech’s research areas.

The most competitive applicants will have prior research experience. WAVE Fellows will receive a $6350 award for the ten-week program. An additional housing/travel supplement will be provided. Online applications are due January 12, 2019.

For more info, see here.

**Amgen Scholars Program:** Caltech’s Amgen Scholars Program is geared towards students in biology, chemistry, and biotechnology fields. Students must be current sophomores through non-graduating seniors, must be attending a four-year university in the US at time of application, and must be U.S. citizens or U.S. permanent residents. A minimum GPA of 3.2 is required. Amgen Scholars will receive a $6350 award, round-trip air transportation, campus housing, and a food allowance. Online applications are due February 15, 2019.

For more info, see here.

**Scripps Institution of Oceanography Summer Internship Program:** Are you considering applying to grad school and interested in oceanography as a career path? Contemplating a career in scientific research and development? Undergraduate college students majoring in Oceanography, Applied Mathematics, Engineering, Physics, Chemistry, Biology or Geology are encouraged to apply. This ten-week internship will offer qualified students the opportunity to work with some of the most notable scientists in the world and learn about marine science and technology while earning a modest salary.

For more info and eligibility requirements, see https://scripps.ucsd.edu/mpl/mpl-summer-internship-program.
*Disclaimer: Undergraduate Biology does not endorse or take responsibility for any off-campus programs listed in Opportunities emails. While we do our best to vet any opportunity that is shared, please let us know immediately if you are suspicious of any employers/programs.

The Marine Physical Laboratory (MPL) at world renowned Scripps Institution of Oceanography (SIO) seeks inquisitive motivated undergraduates with exceptional aptitude for quantitative science, majoring in engineering, physics, applied mathematics, chemistry, biology or geology.

Undergraduate college students contemplating a career in scientific research and development are encouraged to apply for a summer research internship in marine science and technology. This ten-week summer internship program offers qualified students the opportunity to work with some of the most notable scientists in the world while earning a modest salary. In addition to their research, students will attend weekly seminars given by members of MPL faculty and scientific staff and others.

Eligibility
Applicant must be a US citizen or permanent resident currently enrolled as 1st, 2nd or 3rd year undergraduate at a college or university. Senior year undergrads, former MPL interns and high school applicants are not eligible.

- Summer intern salary $14 / hour.
- Internship located at SIO in beautiful La Jolla, California.
- Must be available to start in June and work the duration of the internship, 10 consecutive weeks from the start date.

Application Procedure
- To apply, visit the online registration at scripps.ucsd.edu/mlp/mlp-summer-internship-program, beginning 10/1/18.
- Complete all steps outlined to submit your application.
- Applications due 4 pm Pacific time on 1/18/19.
- Decisions emailed to applicants by end of April.

Required Documents
- Resume
- Statement of interest, including anticipated college graduation date
- Academic records/unofficial transcripts
- Two letters of recommendation from current or recent professors

- scripps.ucsd.edu/mlp/mlp-summer-internship-program - facebook.com/mlp.internship - instagram.com/mlpinternship

UCSD is an equal opportunity employer, with a strong institutional commitment to excellence through diversity.
SPN 322: Practical Spanish (Medical)
Winter Session 2019, online

Pre-Med or Bio-Medical student? Thinking of going into Nursing?
Need to improve your Spanish?
This course is designed for you!

The Practical Spanish course for Medical Professionals is designed for students planning a career in medicine, either as healthcare providers or in a related field, such as medical technology or social work in the healthcare field.

The course provides an overview of basic medical vocabulary in key areas and the contexts where it is used, as well as an overview of cultural and social aspects of providing healthcare to the Spanish-speaking population. The course includes grammar and vocabulary practice, reading and writing activities, interactive assignments and discussions of assigned readings.

Intermediate proficiency required
Satisfies SBC requisite HFA+
