Opportunities Week of December 7, 2018

**CLIMB UP for Summer Research:** The CLIMB UP for Summer Research at the University at Buffalo is a summer research experience for undergrads to excel in biomedical, STEM, and health science research and explore career opportunities.

**Deadline to apply is February 1st, 2019**
For more info, see [https://www.buffalo.edu/climb/apply/undergraduate.html](https://www.buffalo.edu/climb/apply/undergraduate.html)

**Internship Opportunities at Grow More Foundation:** We are looking for BIO interns to join our team to collect, analyze and interpret data on emerging biotechnologies in agriculture. Graphic design, adobe and R experience is preferred but not essential. Grow More Foundation is a 501(c)(3) non-profit organization dedicated to providing education, promoting awareness and establishing transparency of agricultural biotechnology in developing countries. Located on Stony Brook University campus. For any questions, contact Dr. Kate Creasey at kate.creasey@stonybrook.edu and to apply contact Sera Nakisli snakisli@growmorefoundation.org Please include your resume and a short paragraph describing why you would like to contribute to Grow More’s mission.

**OneUSDA Internship:** As part of the Federal Pathways Program, the OneUSDA Internship will provide students a way to explore serving their country through a career in government while gaining work experience in agriculture, natural resources, rural development, and other career fields. In the Summer of 2019, USDA will hire Pathways Interns in hundreds of locations across every state for the following occupational fields: Veterinary Science, Biological Sciences (e.g., natural resources management forestry, wildlife biology, fish biology, ecology, botany, rangeland management, recreation), Engineering, Agribusiness, Contracting, Procurement, and Industry, and General Administration and Office Support. Applications are now open, and will be accepted until January 18th, 2019. For more information, visit [www.USDA.gov/Internships](http://www.USDA.gov/Internships)

**TECBio REU Program in Computational Biology:** This 10-week summer program at the University of Pittsburgh will provide a challenging and fulfilling graduate-level research experience to undergrad students. A wide variety of theoretical and experimental research projects are available, and students will receive classroom training in topics pertinent to the emerging field of computational biology. The program runs May 20th-July 26th, and offers a $5,750 stipend, housing and travel. For more info, see attached flyer and [https://tecbioreu.pitt.edu/](https://tecbioreu.pitt.edu/)

**TEACHING ASSISTANT POSITION for Self-Management Workshops in Mindfulness:** A great resume builder with a letter of recommendation upon conclusion of the semester. Only 1 hour a week commitment, with an additional possibility of earning 1-credit to fulfill the SBC EXP+ requirement. Undergrads and first-year students welcome.

**Info sessions are being held the first week of Spring 2019.**
