Opportunities Week of February 21, 2020

**Healthcare, Research, and Human Services Job and Internship Fair:** Held each semester, this event is for students and alumni seeking a full-time job, internship, co-op or part-time experience in the fields of healthcare, research, biotechnology, and human services. A job fair is an opportunity for you to present yourself professionally in person to a potential employer, while showcasing your communication skills. The keys to a successful job fair experience are preparation and follow up. Here is a checklist to help you get prepared! Registration is required.

**Event. Is Friday, February 28, 2020, 1:00PM – 4:00PM, SAC Ballrooms A & B**

For more info, see attached flyer or visit https://stonybrook.joinhandshake.com/career_fairs/13305/student_preview?token=lypYjxE-5RJNrzRfvg_I010YaY1nmO4EtsUBe evldXWFq rLdHrer kQ

**Kellogg Biological Station Summer Courses & REU:** KBS, in partnership with several departments, offers a wide variety of field-based summer courses that include important prerequisite courses in biology and ecology, plus advanced botany, grant writing, wetland ecology, and GIS. All students committed to courses at least 3 days/week receive 50% room & board support to stay at the station! Links to detailed courses can be found here. Students can also apply for the KBS REU Program! This is an opportunity for undergraduate students to conduct full-time research in collaboration with our outstanding faculty, postdocs, and graduate students. All REU positions offer a generous stipend, FREE room and board at KBS, up to $550 towards travel costs, and up to $250 for research supplies.

**Applications for the REU close March 1, 2020**

For more info, and to apply visit http://www.kbs.msu.edu/education/undergraduate-program/research-experiences-for-undergraduates-reu/

**Resume and Cover Letter Workshop:** Are you applying for a job? Are you applying to graduate school? Do you need a summer internship? The writing program is hosting a resume and cover letter workshop. This will be a hands-on workshop in which students will learn how to craft effective resumes and cover letters targeted to specific audiences. Bring a draft of your resume or cover letter or start one that night.

**Event is Monday, March 2nd, 2020, 7:00PM – 9:00PM, Humanities Room 1023**

For more info, see attached flyer.

**Classroom to Clinic: Exploring Health Science (Radiologic Technology and Radiation Therapy):** The Health Science Department, with support from the Office of Pre-Professional Advising, is hosting a Q&A faculty panel/event for the Radiologic Technology and Radiation Therapy concentrations within the Health Science major. The goal of this event is to expand student knowledge and generate increased student interest in these rewarding career fields (high paying salaries, in-demand job opportunities etc). All undergraduate students are welcome and encouraged to attend (with a particular emphasis on freshmen, sophomore and juniors). RSVP required.

**Event is Thursday, March 5, 2020, Humanities Room 3017**

To RSVP, visit https://docs.google.com/forms/d/e/1FAIpQLSeGMs4rz96F5eDCqmkVYr2v0-pvfJZhh3OxDWV-Mbi9bDtQgg/viewform

For more info, see attached flyer.

**Summer 2020 Stewardship Positions Available at the Adirondack Watershed Institute:** The Adirondack Watershed Institute has 100+ positions available for summer 2020! Join our team and help protect Adirondack waterways. Now hiring paid watershed stewards, decontamination technicians, and supervisors to help safeguard against aquatic invasive species. Positions available at 64+ locations across northern NY. Pay rates start at $13.50 per hour. Applicants may apply for multiple positions. Positions will be filled on a rolling basis. Apply early to increase your chances of working in your desired location!

To apply, visit https://www.paulsmiths.edu/humanresources/student-employment/
Genetic Toxicology Association (GTA) Annual Meeting: The annual meeting of the GTA will be held at the University of Delaware located in Newark, Delaware on May 6-8, 2020. All registrations include breakfast and lunch on May 7th and 8th, and dinner on May 7th. The Genetic Toxicology Association (GTA) is an educational and scientific organization that was founded in 1975. Its primary purpose is to promote the development of the science of genetic toxicology and to foster the exchange and dissemination of information concerning the field. Membership in the GTA is open to anyone interested in genetic toxicology. Students and early investigators who attend the upcoming meeting will be exposed to discussion of both basic and applied science brought to bear on answering some of the most important topics in our field. As an added incentive, we will be sponsoring a social mixer on Wednesday, May 6th for student/early investigator-scientists at which they will have an additional opportunity to speak with GTA members from commercial laboratories, pharmaceutical companies and regulatory agencies.

Registration fees are waived for all students who register before April 6th.

For more info and for abstract submission, visit [http://www.gta-us.org/](http://www.gta-us.org/)

*Disclaimer: Undergraduate Biology does not endorse or take responsibility for any off-campus programs listed in Opportunities emails. While we do our best to vet any opportunity that is shared, please let us know immediately if you are suspicious of any employers/programs.*
