Opportunities Week of 3-12-21

**Michel Colbert Scholarship Application:** The Michel Colbert Endowed Scholarship was established to honor the memory of Michel Colbert, a Biology graduate from the class of 1986 who was killed in the September 11, 2001 attack on the World Trade Center. The goal of this scholarship award is to enhance successful completion of a Bachelor's degree in the biological sciences for a student confronted with significant and unanticipated financial difficulties. Although there is no strict requirement for the year of study, students are typically selected as Michel Colbert Fellows prior to their senior year and receive a full tuition scholarship to support their studies through to graduation as long as they maintain good academic standing and full-time status.

**Application deadline is March 26, 2021**

**Edward J. Mardovich ’81 Memorial Scholarship Application:** The Edward J. Mardovich ’81 Memorial Scholarship in Undergraduate Biology was established by family, friends and fellow alumni of Eddie to provide a permanent source of scholarship support to Stony Brook undergraduate students majoring in Biology. Eddie earned degrees at Stony Brook in Biology and Sociology. He was a former employee at Euro-Brokers, Inc. and was tragically killed in the terrorist attack on the World Trade Center on September 11, 2001. The scholarship is available to any Junior or Senior majoring in Biology with a GPA greater than 3.0. The scholarship is restricted to United States citizens. Selection will be based on both the academic record and a personal statement that addresses the importance of their studies to their long-term career plans and how receipt of the scholarship support will enhance these plans. Awards to cover $1,000 of educational expenses per semester will be given for a full academic year, with a possibility of renewal for students who receive the Scholarship as a Junior. Recipients will be expected to maintain continuous full-time enrollment with a minimum GPA of 3.0 for the entire scholarship period.

**Application deadline is March 26, 2021**

**Fulbright Student Program Information Session:** The Fulbright U.S. Student Program provides funding for overseas research, teaching, or study in any field and foreign language proficiency is not always required. Please see eligibility criteria in the link below! Students interested in applying to be overseas during the 2022-23 academic year should attend a Fulbright Fridays informational webinar this spring. The same information will be presented during each session, so please choose one.

**K-12 Science Teaching Jobs:** Southern Teachers continues to work with science teachers looking for great jobs at K-12 private/independent schools. Our member schools are seeking mid-year teachers as well as teachers to join their school communities for the 2021-22 academic year. In addition, Southern Teachers is holding a virtual job fair on Friday, April 16. School administrators will be interviewing to fill great teaching jobs at this hiring event. This Virtual Job Fair will be held from 10 am– 5 pm via our proprietary software.

**Job Fair date: April 16, 2021**

**Athletic Training Program (AT):** Interested in combining your love of Sports and Medicine? Learning the skills to prevent, care for, evaluate, manage, and rehabilitate injury and illness in athletic and active populations? The Athletic Training Program may be the program for you! The Master of Science degree in Athletic Training at Stony Brook University is offered through the School of Health Technology and Management within Stony Brook Medicine, and is accredited by the Commission on the Accreditation of Athletic Training Education (CAATE). This two year, full-time 77 credit program is designed for students who have successfully completed their baccalaureate degree and prepares students to be eligible to take the Board of Certification (BOC) exam. As students with a baccalaureate degree in biology you will have all of the necessary academic coursework to be eligible for admission into the program.

**Application deadline is March 31, 2021**

Virtual Information sessions: See the attachment below!

**Queer Diagnosis: The LGBTQ+ Health Podcast:** SBU students Zarya Shaikh, Srihita Mediboina, and Jameson Coleman interview LGBTQ+ patients, medical students, and healthcare providers to cultivate an inclusive culture in medicine. New episodes released biweekly on Wednesdays at 5 AM!

**Episode 03, Vahni-Vishala Bernard:** Available on Spotify and Apple Podcasts now! Read the transcript [here](#). In Part 2/2, MS1 Vahni-Vishala Bernard calls upon the administration of her medical school to address a letter that desecrated a safe space intended for students. We examine the dissonance that transformed into unity in response to Vahni’s advocacy for change. Her continued dedication to improvement is evident in her work with communities in Baltimore as an undergraduate student. Vahni earned her Bachelor's in Neuroscience, Psychological & Brain Sciences at Johns Hopkins University. Check us out @QueerDiagnosis.com and @QueerDiagnosis on Twitter/Instagram!
