Opportunities Week of 3-26-21

Michel Colbert Scholarship Application: The Michel Colbert Endowed Scholarship was established to honor the memory of Michel Colbert, a Biology graduate from the class of 1986 who was killed in the September 11, 2001 attack on the World Trade Center. The goal of this scholarship award is to enhance successful completion of a Bachelor's degree in the biological sciences for a student confronted with significant and unanticipated financial difficulties. Although there is no strict requirement for the year of study, students are typically selected as Michel Colbert Fellows prior to their senior year and receive a full tuition scholarship to support their studies through to graduation as long as they maintain good academic standing and full-time status.

Application deadline is March 26, 2021 - TODAY at 4PM!!!
For more info and application click here

Edward J. Mardovich '81 Memorial Scholarship Application: The Edward J. Mardovich '81 Memorial Scholarship in Undergraduate Biology was established by family, friends and fellow alumni of Eddie to provide a permanent source of scholarship support to Stony Brook undergraduate students majoring in Biology. Eddie earned degrees at Stony Brook in Biology and Sociology. He was a former employee at Euro-Brokers, Inc. and was tragically killed in the terrorist attack on the World Trade Center on September 11, 2001. The scholarship is available to any Junior or Senior majoring in Biology with a GPA greater than 3.0. The scholarship is restricted to United States citizens. Selection will be based on both the academic record and a personal statement that addresses the importance of their studies to their long-term career plans and how receipt of the scholarship support will enhance these plans. Awards to cover $1,000 of educational expenses per semester will be given for a full academic year, with a possibility of renewal for students who receive the Scholarship as a Junior. Recipients will be expected to maintain continuous full-time enrollment with a minimum GPA of 3.0 for the entire scholarship period.

Application deadline is March 26, 2021 - TODAY at 4PM!!!

Athletic Training Program (AT): Interested in combining your love of Sports and Medicine? Learning the skills to prevent, care for, evaluate, manage, and rehabilitate injury and illness in athletic and active populations? The Athletic Training Program may be the program for you! The Master of Science degree in Athletic Training at Stony Brook University is offered through the School of Health Technology and Management within Stony Brook Medicine, and is accredited by the Commission on the Accreditation of Athletic Training Education (CAATE). This two year, full-time 77 credit program is designed for students who have successfully completed their baccalaureate degree and prepares students to be eligible to take the Board of Certification (BOC) exam. As students with a baccalaureate degree in biology you will have all of the necessary academic coursework to be eligible for admission into the program.

Application deadline is March 31, 2021

Virtual Information sessions here

The LifeSci NYC Internship Program: offers the opportunity to apply to paid internships and jobs at a broad spectrum of companies and organizations across New York City's life sciences industry. Over the past three years, via LifeSci NYC, over 300 students have worked at 90 different companies. The program is open to undergraduate and graduate students who either attend a university in New York City or are residents of New York City. Recent graduates (spring
2020 and later) are also eligible to apply. We also continue to post non-summer roles, many of which are full-time jobs. These opportunities are posted on a rolling basis, and both recent alumni and current students are eligible. The full rolling list of opportunities can always be viewed HERE. Recently posted roles include Front Office & Workplace Coordinator at Teladoc, Spring Marketing Intern at Zeel, Synthetic Biology Technicians at Neochromosome, Bioprocess Associate at C16 Biosciences, Onboarding Operations Associate at Valera Health, and Sales Assistant at CortecNet.

**The deadline to apply for summer internships is Wednesday, March 31, 2021**

Apply HERE!

**Queer Diagnosis: The LGBTQ+ Health Podcast:** SBU students Zarya Shaikh, Srihita Mediboina, and Jameson Coleman interview LGBTQ+ patients, medical students, and healthcare providers to cultivate an inclusive culture in medicine. New episodes released biweekly on Wednesdays at 5 AM!

**Episode 04, Mitra Sadigh** - Available on Spotify and Apple Podcasts now! Read the transcript here. A human rights activist shaped by her Iranian heritage, Mitra shares how her roots in music and philosophy have led her to medicine. She celebrates small victories while recognizing those efforts alone will not catalyze cultural shifts towards inclusivity. Mitra is a non-traditional MS1 from the Renaissance School of Medicine at Stony Brook University.

Check us out at QueerDiagnosis.com, Twitter, & Instagram!

**SBU Pre-Genetic Counseling Club:** The Pre-Genetic Counseling Club will be having their next GBM on Monday March 29 at 8pm. We will be discussing the disorder, Multiple Sclerosis! If you are interested in learning alittle about MS and meeting some other genetic counseling peers please join our zoom!

**Date and Time:** Monday March 29 at 8pm

Access zoom meeting here

**SBYIR Symposium:** Are you a SBU student conducting research? SBYIR is hosting a research symposium on May 4th where you can present your research and receive feedback from graduate students or experts in your field. Through presenting, you can gain valuable experience and hone in on your public speaking skills. This is an exciting event where you can showcase your research to the Stony Brook community! We encourage undergraduate students in all disciplines to consider presenting! We are also encouraging students who are in the "middle" of a research project (ie: in the middle of data analysis, but would like to practice presenting their work to an audience) to register as well.

**Registration Deadline: Extended to April 4, 2021**

Register here.

**See attached flyers for more information on various opportunities**

*Disclaimer: Undergraduate Biology does not endorse or take responsibility for any off-campus programs listed in Opportunities emails. While we do our best to vet any opportunity that is shared, please let us know immediately if you are suspicious of any employers/programs.*
