Opportunities Week of April 13, 2018

Jobs Available in the Department of Neurobiology and Behavior: There are 1-2 work study/non-work study positions available to assist in the upkeep of a zebrafish colony. Shifts are 1-3 hours in the morning or afternoon, longer on the weekends. Sophomore or Junior Biology/Biochemistry major preferred. Students must be available on weekends and during winter break. Positions include up to 15 hours per week, starting rate $9/hour.

For more info and application instruction, see attached flyer

Research Internship in the Santagata Lab at LIU-Post: Dr. Scott Santagata from LIU-Post is looking for an undergraduate research intern for this summer. The lab involves cloning and expressing metabolic genes from Antarctic and warm-water species of bryozoans to investigate functional differences in enzymatic activity at different temperatures. The position is for a maximum of 10 weeks with a $3,000 stipend and $500 for research supplies. More information on the lab can be seen here: https://sites.google.com/site/scottsantagata/

Interested students should email Scott.Santagata@liu.edu

Kids Need More Summer Counselor Positions: This is a local nonprofit organization dedicated to enhancing the lives of children, families, and young adults coping with cancer and life threatening illness. One of our signature programs is Camp Adventure, a one week sleep away camp for over 150 children with cancer and their siblings on Shelter Island. We are on the hunt for ACTIVE college students who are enthusiastic, love working with children, and are looking to make a difference.

More info and application at: kidsneedmore.org

Thinking Caps Group Tutoring Positions: Thinking Caps is a unique tutoring company that provides individualized subject tutoring, test prep, and academic support services. There are several tutor positions open for highly qualified candidates. Currently looking for individuals to hire that are strong in one or more of the following subjects: math, foreign languages (Spanish and/or French), writing and reading, sciences (physics, chemistry, biology), general humanities. Looking for candidates with 3.5 minimum GPA,

To apply, email resume and cover letter to tutors@thinkingcapsgroup.com. More info at www.thinkingcapsgroup.com

NSLS Cabo Fresh Fundraiser: The National Society of Leadership and Success is a national honor society with a branch on campus. They will be hosting a Cabo Fresh fundraiser on Wednesday, April 18, 11AM-10PM. 50% of the proceeds will be donated to NSLS

For more info, see attached flyer

Alaska Dive Semester: The University of Alaska Southeast is offering a field-based program at UAS Sitka Campus, running January 14-May 3, 2019. Students interested in fisheries, diving, and marine biology may be interested. Students will work with UAS faculty to become accomplished research divers.

For more info, see attached flyer or http://divesemester.alaska.edu/

*Disclaimer: Undergraduate Biology does not endorse or take responsibility for any off-campus programs listed in Opportunities emails. While we do our best to vet any opportunity that is shared, please let us know immediately if you are suspicious of any employers/programs.
Immediate Opening

Alaska Dive Semester
A field-based program at UAS Sitka Campus

WHEN
Spring semester
January 14-May 3, 2019

WHO
Students interested in fisheries, diving, and marine biology!

WHY SITKA?
Sitka serves as the perfect backdrop for a semester of experiential study focusing on diving techniques. A town of 9,000, Sitka lies on the outer edge of Baranof Island in Southeast Alaska, and offers unique opportunities for hands-on marine studies along rocky shores and within dense kelp forests. As well as being a marine hot-spot, Sitka boasts a dynamic, diverse, and inclusive community. Students will have the opportunity to get to know Sitka in a number of ways—through natural history seminars, community concerts and activities, and its bustling downtown.

PROGRAM
Students will work with UAS faculty to become accomplished research divers. Over the semester, students will learn about topics ranging from basic dive skills, to underwater rescue procedures, to marine data collection. Participants will become familiar with local fish and invertebrate species and collaborate on research projects. Additionally, students will learn basic skiff handling and engine maintenance techniques, critical to underwater field work. Over the semester, students can expect to log between 25 and 50 dry suit dives.

COURSEWORK (12 CREDITS)
Fisheries Technology 188 - Basic SCUBA Diving (3cr)
Fisheries Technology 189 - Advanced SCUBA Diving (1cr)
Fisheries Technology 193 - Cold Water Survival (1cr)
Fisheries Technology 288 - Scientific Diving (2cr)
Fisheries Technology 291 - Internship (Diving) (3cr)
Marine Transportation 119 - Small Vessel Operator (1cr)
Marine Transportation 120 - Outboard Motor Maintenance (1cr)

OTHER COURSES AVAILABLE TO STUDENTS!
Fisheries of Alaska, Alaska Salmon Culture I & II, Fisheries Biology, Natural History of Alaska, Flora of Southeast Alaska, Tlingit Language, Ceramics, Northwest Coast Art, Welding, Yoga, Fitness Classes

ASK US ABOUT OPTIONS FOR CERTIFIED DIVERS!
**Living in Sitka**
This small, yet vibrant, coastal town is well known for its rich Tlingit and Russian history, as well as tremendous fishing, hiking, and whale watching. There is a local public radio station, fitness center, climbing wall, aquarium, aerial arts studio, and state of the art Performing Arts Center. Several restaurants feature local seafood, locally roasted coffee, fresh baked goods, and locally brewed beer. For a small town, Sitka has a lot to offer visiting students! Sitka has reliable public transportation, enjoys bike-friendly community status, and all amenities are within walking distance of the university.

**Lodging**
Sitka has many housing options, including co-occupancy rooms from the Sitka Fine Arts Camp on the historic Sheldon Jackson Campus, long term off-season occupancies at local fishing lodges, hostels, hotels, and B&Bs, and other short-term rentals.

**Gear**
The Alaska Dive Semester course fees include use of dive equipment, scientific sampling gear, air fills, and everything needed to complete required dives.

**Facilities**
All classes will be at UAS or local field sites. UAS classrooms are equipped with Smart Boards and wireless internet. Small class sizes ensure students receive personal attention from top-notch faculty. Transportation for fieldwork will be provided by the university.

**Approximate Cost**
Tuition and Fees = $4,000.

**Application Deadline:**
October 15, 2018 for priority consideration, followed by an open enrollment until filled, 15 participants maximum.

**For More Information:**
Dr. Reid Brewer
