Opportunities Week of September 6th, 2019

**Graduate School Preview Day:** Presented by the Center for Inclusive Education, the Graduate School Preview Day, The PhD: A Path to Success, gives students an opportunity to: meet with current graduate students and learn about “the other kind of doctor,” learn about funding opportunities and academic support, network with graduate program faculty, learn about the admissions process from the Dean of the Graduate School and Admission Committee Faculty, and visit labs in your field of interest. The target audience is undergraduate and master's students who want to pursue a PhD. Underrepresented minorities are strongly encouraged to attend.

**Friday, October 4th, 2019 at the Hilton Garden Inn on campus.**
For more info see attached flyer, to register visit https://docs.google.com/forms/d/e/1FAIpQLScMT3hbdFWjDVHCeF4moVyo15d4INgHjb1aBbfzBKGGgGZRdp/formviewform

**Internship Opportunities at the Grow More Foundation:**

**BioScience Communicators:** Grow More is seeking exceptional writers for sharing information on biotechnological advancements in agriculture with the public through social media platforms. Are you good at explaining science to your friends and family? Do you enjoy thinking of interesting and fun memes? Do you like using social media and want to learn more about GMOs, bioediting of crops and plant science?
If interested send written example of work along with resume to kate.creasey@stonybrook.edu

**BioScience Innovators:** Grow More is seeking creative innovators to design and develop prototypes for the lab and greenhouse. We seek those who are interested in being part of a team to turn ideas into creations. Do you like using your hands to solve problems?
If interested, send examples of creative works along with resume to kate.creasey@stonybrook.edu

**Hertz Graduate Fellowship Information Session:** This session will be led by Dr. Jessica Seeliger from Pharmacological Sciences; a previous Hertz Fellow who has also served as an interviewer. We are seeking highly motivated and creative graduating seniors and first-year graduate students to apply for this prestigious award by the October 23 deadline. Juniors are also invited to attend so they may plan for next year's application cycle. The Hertz Fellowship is a five-year award in the applied physical and biological sciences, mathematics, and engineering. The Fellowship not only provides guaranteed funding and financial independence, but also allows access to an inspiring community of Fellows and a unique series of special events. Interested students must click here for eligibility information prior to attending.

**Info session is held on Friday, September 13th, 2:30-4:00 PM, Center for Inclusive Education (2401 Old Computer Science Building)**
To RSVP, click here

**University at Buffalo’s (UB) Academic Health Center:** Brings together the talents of clinicians, educators and researchers to provide a superb learning environment to foster innovative discovery within the health sciences with strengths in: clinical and translational research, inter-professional education and high impact patient care leading to exceptional training of health care practitioners. The Schools represented are: Dental Medicine, Jacobs School of Medicine & Biomedical Sciences, Nursing, Pharmacy & Pharmaceutical Sciences, Public Health & Health Professions, Social Work, Roswell Park Comprehensive Cancer Center Graduate Programs, Social Work. We will be hosting informational recruitment webinars for prospective students about the degree options available.

**Webinar on Thursday, September 19th, 2019, 4:00-5:00 PM EST**

**SUNY Upstate Graduate Fellowship Positions:** The Department of Biochemistry and Molecular Biology of SUNY Upstate Medical University is recruiting highly qualified students for graduate fellowship positions for the 2019-2020 academic year. The program offers a competitive stipend with a full waiver of tuition. Students can apply to an interdepartmental Biomedical Sciences Program which would allow
access to every faculty member at Upstate.

For more info on the graduate program in Biochemistry and Molecular Biology can be found at www.upstate.edu/biochem and the Biomedical Sciences Program at www.upstate.edu/grad

**Miami University’s Project Dragonfly:** Accepting applications for 2020 Earth Expeditions graduate courses that offer extraordinary experiences in 16 countries throughout the world. Earth Expeditions can build toward the Global Field Program (GFP), a master's degree that combines summer field courses worldwide with web learning communities so that students can complete the GFP master's part-time from anywhere in the United States or abroad. Project Dragonfly also offers the Advanced Inquiry Program (AIP) master's degree that combines web instruction from Miami University with experiential learning and field study through AIP Master Institutions in the U.S. Applications for Miami's 2020 cohorts are being accepted now for the AIP master's that includes place-based experiences at zoos in Chicago, Cincinnati, Cleveland, Denver, New York, San Diego and Seattle.

**Applications being accepted until February 28th, 2020, courses will begin in May 2020.**

For more info, see [https://earthexpeditions.miamioh.edu/](https://earthexpeditions.miamioh.edu/)

**PennVet Program:** Over 60% of all infectious diseases of animals can also affect humans. Veterinarian-scientists, by virtue of their broad experience in multiple species and extensive training in both molecular and whole animal contexts, are uniquely qualified to address the complex programs presented in modern biomedical research. For over 40 years, the University of Pennsylvania’s School of Veterinary Medicine has provided an outstanding environment for the training of future veterinarian-scientists through its VMD-PhD program. Impact tomorrow’s medicine for all species!
