

# STONY BROOK UNIVERSITY CAREER CENTER

## Business

The College of Business offers undergraduate students a major and a minor in Business Management.

The major program offers students a solid foundation of essential business concepts and applications. In addition to courses in statistics, decision sciences, and general management, students study the fundamentals of seven business functions: accounting, entrepreneurship, finance, international business, marketing, management and operations, and sustainable business. Majors have an opportunity to concentrate in one of these seven business functions. The knowledge gained in the specialization assists students in finding employment in that area of a business.
