"As a former student in the Spanish minor, I'm happy to say that my experiences in Spanish classes have made me a more well rounded and educated person. While working in the dental clinic, I have been asked to speak with a patient in Spanish. And the skills of fluency and linguistic navigation I learned from the Department's great professors have been massive. I recently thought, "wow, in clinic, I use my Spanish classes on a day to day basis WAY more than I use my biology classes."
