

CYBERMISTS WORKSHOP APPLICATION FORM

ABOUT: Cybersecurity for Middle School Teachers and Students (CyberMiSTS) is hosting a summer workshop that will provide middle school teachers the knowledge, skills, and tools they need to teach their students about cybersecurity. Although the target audience is Career and Technical Education teachers, we welcome any other teachers who are able to integrate a cybersecurity unit into their curriculum. A two-week long workshop (July 8-19, 2019) will be held every weekday from 9 AM to 3:30 PM at Stony Brook University, NY. If you complete this 10-day workshop, you will receive a \$1000 stipend. No stipend will be given if you drop out before the end. If you deliver your lessons to your class, collect data regarding their learning, and then share the results at a subsequent half-day meeting, you will receive an additional \$300 stipend. You may also receive Continuing Teacher and Leader Education (CTLE) credits. Preference will be given to applicants working in a Suffolk County (NY) school system.

1. Full name: _____
2. Email: _____
3. Phone number: _____
4. Your job title: _____
5. School name: _____
6. School district: _____
7. Full school address: _____
