SB Alert - Emergency Notification Registration

SB Alert is a comprehensive emergency notification system used to alert members of the campus community about major emergencies, immediate threats or impending situations that can pose harm to individuals, disrupt classes, or impact facilities, activities or other operations. When activated, the system can send a voice, an alphanumeric page, email and/or a text message to ALL of the devices that you enter in the next page, SB Alert - Contact Information. Click the 'SB Alert - Contact Information' tab to enter your information.'

Please note that your cell phone provider may charge a fee for delivery of text messages based on your current calling plan. Bear in mind, however, that messages are sent only when there is a real emergency. We believe that the benefit of receiving vitally important safety information outweighs the cost of a text message.
