

#### IV. Content Area Requirements

Students must complete 5 graduate English courses above and beyond the 36 undergraduate English credits required for admission to the program. Graduate students must also meet the distribution requirements specified in the nine Required Areas of Study. These requirements may be met by either the graduate courses taken towards the MAT degree or by undergraduate coursework. Undergraduate transcripts will be evaluated on an individual basis. Equivalent undergraduate courses will ordinarily be accepted. In addition, a cluster of undergraduate courses may be accepted as evidence of satisfaction of individual standards, even if individual courses do not represent exact equivalents. However, the student will bear the burden of proof of showing that such coursework provides a broad introductory knowledge of the area of study.
