Updating Your Expense Profile

To access your profile information

1. Click the Person Icon > Profile Settings in the upper right corner of the homepage.
   The Profile Options page appears.

   Use the Profile Options page to set or change your personal preferences. To avoid re-entering personal and permanent information about yourself, complete your profile after logging onto SAP Concur for the first time and review/update it whenever your information changes. Your profile options include Approvers, Attendees, Expense Delegates and Expense Preferences.

2. Click the appropriate option from the left-side menu. At a minimum, you should do the following:
   - Verify your primary email address is correct and add any additional email addresses that you will be using to submit receipts.
   - Verify and update your Personal Information.
   - Verify that the name of your Expense Approver is correct. This person should be your supervisor and the first approver in your workflow. If the data is incorrect, ask your supervisor to contact the VP Coordinator to resolve the issue with HRS – Class & Comp.
• Review the information is accurate under Expense Information.

### Assigning a Delegate

**To assign a delegate**

1. Click Profile > Profile Settings. The Profile Options page appears.
2. Click Expense Delegates from the left-side menu, then Add.
3. Locate the appropriate employee using the Search by... field, then click Add.
4. Select the checkboxes to set the delegate’s permissions.

   - **Can Prepare** enables the delegate to prepare a report/request but not submit it.
5. After selecting the appropriate checkboxes, click Save.

   NOTE: Selecting Can Prepare automatically enables Can View Receipts because receipts are integral to preparing a report.
Acting as a Delegate

If you are a delegate, your delegator will define which tasks you can complete, such as preparing reports, receiving Concur-related notifications, etc.

To work as a delegate
1. Click Profile then Act on behalf of another user.
2. Click on the magnifying glass icon to view a list of the employees that you have as their delegate.
3. Select the appropriate delegator’s name from the list.
4. Click Start Session.
   Notice that the Profile menu now displays Acting as and shows the name you just selected.

5. You are now officially working on behalf of that person.
   Complete the normal processes for creating reports, printing, etc.
   To select a different user, follow the same steps but click a different name.
6. To return to your own tasks, click Acting as, and then select Done acting for others.

Creating a New Expense Report for Travel Reimbursement

To create a new expense report:
1. From the Home dropdown tab choose Expense, on the Manage Expenses page click the + Create New Report tile.
2. For the Funding Source - Policy field choose **SBF-Employee Travel Reimbursement Policy** from the dropdown menu. Complete all the required fields (marked with red asterisks). For the Funding Source field on the bottom left of the page, you must choose SBF. Note that the SBF Department(s) in the Department Account dropdown are only the ones in which you are an Account Director, Signatory Delegate or Traveler. The Account Approver dropdown will populate for the Department you choose.

### Special Note on Travel Allowance Selection:
For the SBF POLICY the default is NO since SBF does not issue travel allowances. Reimbursements are typically issued on actual meal receipts. **Select Yes ONLY if you are requesting reimbursement based on meal per diems.**
**STEPS 3 – 11 BELOW ARE FOR PER DIEM MEALS ONLY**

If you are requesting per-diem reimbursement, select *Yes, I require Travel Allowance* and click **Next**

**IF YOU ARE SUBMITTING RECEIPTED EXPENSES**
**PROCEED TO STEP 12**

3. If you select *Yes (you are requesting per diem reimbursement for meals)*, the Itinerary Info page opens.

4. Complete the fields for the **New Itinerary Stop** based on your travel.

5. Click **Save**.

6. Add additional **New Itinerary Stops**, as needed, based on your trip and **Save** them.

**NOTE:** At a minimum, you should have two stops, the outbound and return legs of your trip.

7. After adding in all itinerary stops, click **Next**.
8. Click **Next** to assign the selected itinerary and create the Per Diem expenses.

9. Click on the checkboxes to exclude meals from your per diem, as necessary. For instance, if you had breakfast at home on your first day of travel, you should select the **Exclude Breakfast** checkbox for that meal because it is not included in your per diem. Similarly, if you are attending a hosted event that provides breakfast and dinner, you should exclude both expenses from your per diem.

   **NOTE:** The daily **Allowance** amount will change to reflect your adjusted per diem.
10. After selecting all of the meal exclusions, click **Create Expenses**.

11. The **Meals – Per Diem** expenses now appear in your report.
Receipted Expenses

12. For receipted expenses, including meals, continue from #2 above. Make sure to answer **NO to Travel Allowance** question and then click **Create Report**.

**Travel Allowance**

(1) FOR STATE or RF POLICIES: Select YES if claiming meal per diems (must provide lodging receipt). Select NO if using the Unreceipted Lodging/Meals expense type (if you stayed with family and/or friends). (2) FOR SBF POLICY: Select YES if claiming meal per diems. Select NO if providing meal receipts.

- Yes, I require Travel Allowance
- No, I do not require Travel Allowance

13. Click **Add Expense**. Select the appropriate expense type from the list.
14. The page refreshes, displaying the required and optional fields for the selected expense type. Complete all the required fields (marked with red asterisks) then select one of the following:

- **Add Receipt** – To upload and attach receipts (required in order to submit report)
- **Itemizations tab** – THIS FIELD IS NOT USED FOR SBF EXPENSES
- **Save Expense** – To save the expense
- **Cancel** – To exit without saving this expense

**Copying an Expense**

You can copy an expense and then update the expense details to quickly enter a new expense. This is especially useful for recurring business expenses.

**To copy an expense**

1. With the expense report open, select the expense you want to copy.
2. Click **Copy**.
3. The new expense is added to the Expenses list. Notice the following:

- The original expense date is advanced by a day.
- All details from the original expense are copied to the new expense.
- Receipts from the original expense are not copied to the new expense. This type of information is generally associated with only one expense, so it is not copied to the new expense.

**Adding Back-up Documentation to an Expense Report**

All expense reports require you to add back-up documentation such as an agenda, brochure, invitation, etc.

**To add back up documentation to an expense report**

1. From the manage expenses screen, click Add Expense.

2. Search for/select *Agenda/Brochure/Invitation ($0)* from the list. (Under 03. Other Travel Expenses)
3. The **New Expense** window appears, and Agenda/Brochure/Invitation populates in Expense Type. Click on **Add Receipt** and upload the required back up material(s).

4. After adding the documentation, click **Save**.
Allocating Expenses

You can allocate expenses to multiple accounts or account approvers, which will be charged for those expenses. You can allocate a single expense or multiple expenses. You may only allocate to the funding source corresponding to the SBF Employee Travel Reimbursement Policy.

To allocate your expenses

1. With the expense open, to create or edit a single expense, click Allocate.

2. With the report open, to allocate multiple expenses, select the appropriate expenses on the left side of the page, and then click Allocate.
The Allocate window appears. The total expense Amount, the amount Allocated, and the amount Remaining are listed.

3. From the Edit dropdown list, select Percent or Amount.
4. Click Add.
5. Add allocations (as needed) by selecting appropriate Accounts and Account Approvers, from the New Allocation or Favorite Allocations tabs. Save each one.
You can adjust the amounts and percentages. The total amount must be allocated 100%, otherwise an audit rule will prevent you from submitting the report.

6. Click **Save**.

![Allocate](image)

7. Click **Save Expense**. The entry for the expense now displays the **Allocated** link.

**To account for an expense incurred in another currency**

1. With the report open, click **Add Expense**, and then **Create New Expense**.
2. Search for or enter the appropriate expense type.
3. Complete the required fields (indicated with a red asterisk).

   Note the following:
• Select the "spend" Currency from the list to the right of the Amount field. Notice that the Conversion Rate field appears.

• The Conversion Rate is automatically populated according to the Transaction Date and Currency entries. Expense calculates the Amount in your reimbursement currency.

• Currency can be converted by multiplying by a particular rate or dividing by a different rate. To switch between multiplication of the rate to division of the rate, click Reverse next to the Conversion Rate field.

4. Complete the remaining fields as appropriate, and then click Save Expense.

You may mark certain trip legs as personal, deduct your regular (non-reimbursable) commute, or make it a round trip by selecting the appropriate checkboxes or links.

6. After entering your Waypoints and defining the other parameters of your trip, click Calculate Route. The system will calculate the most logical path for the trip.
