**About these data**

Total headcounts reflect official statistics reported to the U.S. Department of Education through the Integrated Postsecondary Education Data System (IPEDS); most recent year is preliminary until reported to IPEDS in the spring. Data for race/ethnicity categories were collected and reported using definitions from IPEDS; values for 2011 and 2012 have been revised to reflect these guidelines. Individuals may be counted in only one category. Percent of total uses the total number of students as a denominator; changes in unknown race/ethnicity can distort percentages. Percentages of U.S. citizens and legal residents with known race/ethnicity remove students with unknown race/ethnicity as well as non-resident alien (international) students from the denominator; this calculation is comparable to figures from the U.S. Census.

\* Data for 2010 use official counts for totals reported to IPEDS but interpolate race/ethnicity categories based on fall 2011 percentages.

**About these data**

Total headcounts reflect official statistics reported to the U.S. Department of Education through the Integrated Postsecondary Education Data System (IPEDS); most recent year is preliminary until reported to IPEDS in the spring. Data for race/ethnicity categories were collected and reported using definitions from IPEDS; values for 2011 and 2012 have been revised to reflect these guidelines. Individuals may be counted in only one category. Percent of total uses the total number of students as a denominator; changes in unknown race/ethnicity can distort percentages. Percentages of U.S. citizens and legal residents with known race/ethnicity remove students with unknown race/ethnicity as well as non-resident alien (international) students from the denominator; this calculation is comparable to figures from the U.S. Census.

\* Data for 2010 use official counts for totals reported to IPEDS but interpolate race/ethnicity categories based on fall 2011 percentages.

**About these data**

Total headcounts reflect official statistics reported to the U.S. Department of Education through the Integrated Postsecondary Education Data System (IPEDS); most recent year is preliminary until reported to IPEDS in the spring. Data for race/ethnicity categories were collected and reported using definitions from IPEDS; values for 2011 and 2012 have been revised to reflect these guidelines. Individuals may be counted in only one category. Percent of total uses the total number of students as a denominator; changes in unknown race/ethnicity can distort percentages. Percentages of U.S. citizens and legal residents with known race/ethnicity remove students with unknown race/ethnicity as well as non-resident alien (international) students from the denominator; this calculation is comparable to figures from the U.S. Census.

\* Data for 2010 use official counts for totals reported to IPEDS but interpolate race/ethnicity categories based on fall 2011 percentages.
