About these data

Total headcounts reflect official statistics reported to the U.S. Department of Education through the Integrated Postsecondary Education Data System (IPEDS); prior to 2010 data for race/ethnicity categories were collected and reported using definitions from IPEDS. In 2010 and later, individuals were asked to report ethnicity and race separately, with the potential to indicate more than one race; these tables capture those data, without regard to visa or citizenship status and will add to more than 100 percent in 2010 and later. The reported race/ethnicity categories of international students are included in counts and percentages. Percent of total uses the total number of students as a denominator; changes in unknown race/ethnicity can distort percentages. Percentages of U.S. citizens and legal residents with known race/ethnicity remove students with unknown race/ethnicity from the denominator.

* Data for 2010 use official counts for totals reported to IPEDS but interpolate race/ethnicity categories based on fall 2011 percentages.
