Title: MIC receives new donation

Mr. Yunpeng Ding, Director of International Business Development of GXChain, has pledged to make an annual donation to MIC for the next five years. This gift will go a long way to helping us fulfill our mission in research and outreach in multilingual and intercultural communication, on Stony Brook campus and far beyond.

Mr. Ding received a combined MS/BS degree in Applied Mathematics and Statistics & Computer Science from Stony Brook University.

This is the second gift MIC has received within the 2018-19 academic year.
