ON FOOT?
On guard!

Ditch the distractions. Keep your eyes and ears on traffic.

Walk on the edge. Always use the sidewalk when there is one. When there’s not, stick to the shoulder and face traffic.

Cross at corners. Obey signals at all times and use crosswalks.

Make eye contact. Don’t take a step to cross until drivers see you.

Be visible. If you’re wearing dark clothing, drivers may not see you. So do what you can to be seen.
