REQUEST TO TRANSFER FUNDS

The **Request to Transfer Funds** is an internal Stony Brook Foundation (SBF)/Research Foundation (RF) routing form used for transferring existing Stony Brook Foundation funds to the Office of Sponsored Programs (OSP) to support research activities. This form should not be used to make deposits.

Section A will be initiated and completed by SBF.

Sponsored Research: Request to transfer SBF money to OSP in support of research activities.

General Administrative Services: Request to transfer SBF money to OSP in support of institutional activities that are not research related.

Miscellaneous Support Charges: Request to transfer SBF money to OSP in support of iLab, Wolfmart or other miscellaneous support charges.

Indirect Cost: Philanthropy or grants solicited by University Advancement for projects that involve human subjects and/or vertebrate animal subjects, DNA, radiation or radioactive materials, biologically or chemically hazardous materials and controlled substances will be assessed a onetime 15% administration fee: 10% will go to the Research Foundation to cover indirect cost and 5% will remain with the Stony Brook Foundation for indirect costs. Gifts or grants solicited with an unrestricted purpose will be assessed the 10% administration fee; however if the designee of the gifts or grants use the funds for projects that involve human subjects and/or vertebrate animal subjects, DNA, radiation or radioactive materials, biologically or chemically hazardous materials and controlled substances, and additional 5% administration fee will be assessed by RF. The Stony Brook Foundations current gift fee is 10% on all current use gifts.

Note: A proposal initially prepared and classified as a gift that subsequently is found to contain disqualifying terms and conditions relating to the use of the support may require reclassification of the support as a new sponsored project, and the external funding as well as agreement will be transferred to the Office of Sponsored Programs for review and processing. Investigators will process such type of new sponsored research awards through Coeus.

DEPARTMENT AND PROJECT INFORMATION

Section B will be completed by the principal investigator or designated administrator.

Project Title: Provide the title of the OSP award and briefly describe the general project area.

Description of project or abstract: highlight the scope of the proposed research, including its objectives and the intended methodology, the anticipated results, and a statement of potential significance.

Budget: The principal investigator or designated administrator should identify the amount to transfer. For any transfer, OSP must receive an itemized budget detailing the proposed expenditures. It is important to substantiate the budget with an explanation or a budget justification.

COMPLIANCE DATA

Use of Human Subjects: If checked, a project plan and protocol must be submitted to the Institutional Review Board (IRB). The IRB must review and approve the proposal before research can commence. Forms and information can be found at <http://research.stonybrook.edu/orc>.

Use of Animal Subjects: Any research or teaching activity involving the use of live vertebrate animals must be approved by the Institutional Animal Care and Use Committee (IACUC) prior to ordering animals and prior to commencement of the activity, and must comply with all requirements of University Policy [P204](#).

Recombinant DNA: The use of recombinant DNA is strictly regulated by the federal government. Forms and information can be found at <http://research.stonybrook.edu/orc>.

Hazardous Materials: Hazardous Materials include infectious, radioactive, carcinogenic, teratogenic, mutagenic, corrosive, and combustible substances. Handling, shipping, and disposition of hazardous materials and waste are federally regulated. For these activities, consult with the Department of Environmental Health & Safety.

REQUIRED SIGNATURES

Required Signatures: All investigators plus their respective department Chair and Dean are required to sign the form. By signing, all parties acknowledge that all intellectual property resulting from this transfer are subject to University policies, and all parties certify that this request is in compliance with the OSP and RF policies.

Situations where proper classification cannot be determined should be referred to and shall be resolved mutually by and between the Stony Brook Foundation and The Research Foundation for The SUNY.
