Human Resource Management Program

The ability to effectively manage human resources is critical to the success of any organization. HR professionals must possess the broad-based knowledge and specific competencies necessary to align human resource functions with organizational goals. Stony Brook University's Human Resource Management program is designed to provide the academic preparation required for professionals to enter the field or advance their careers.

Master of Science in Human Resource Management

The Master of Science in Human Resource Management program consists of 10 three-credit courses as outlined below. The curriculum has been updated and refined to align with standards established by the Society for Human Resource Management. Newly admitted students will follow the program as it is presented below; continuing students may choose to follow this new program or they may fulfill degree requirements by using a combination of courses from the new program and their **original HRM program**.

Students are advised to print and keep one of the following advisement worksheets to plan their degree:

- [Advisement Worksheet for Students Admitted in Fall 2015 or later](#) (PDF)
 - [Advisement Worksheet for Students Admitted Prior to Fall](#) (PDF)
 - [Advisement Worksheet for International Students](#) (PDF)
- 

Degree Requirements – Effective Fall 2015

Every course is required. All students must take HRM 532 in their first semester.

HRM 532: Foundations of Human Resources (formerly CES 515)

HRM 533: Employee Relations and Labor Management (formerly CES 516 Survey of Employee Relations)

Hiding Behind the Screen
Roger Scruton
